COMPILED INFORMATION

THE CASE OF VOLUNTARY BEHEADING AND CANNIBALISM IN VIETNAM

UPDATED AS OF NOVEMBER 27, 2025

Preface

This document was compiled to recount the events of the case in which Nguyen Xuan Dat voluntarily offered himself to be beheaded, butchered, and cannibalized by another person in January 2025. The incident came to light on social media in July 2025. However, Nguyen Xuan Dat's family did not file a report, and the police authorities have not launched an investigation. Subsequently, the case faded into obscurity, until late November when information about the perpetrator began to be uncovered and published on social media by the online community over the past few days.

Throughout world history, cases of cannibalism are not rare. However, there are only three known cases where an individual voluntarily offered themselves to be killed and cannibalized. Two occurred in Germany, and the remaining case is this one involving Nguyen Xuan Dat. The brutality of this Vietnamese case, however, is considered far beyond the other two – where the victims were stabbed and died from blood loss. The international online community has assessed the Nguyen Xuan Dat case as a classic within the world's "gore" scene.

As of this moment, November 27, 2025, the perpetrator is still at large in society, living freely under a facade of morality and intellect. There is also a high probability he is seeking his next target, similar to Nguyen Xuan Dat, making him a particular danger to society.

This document was written by Vietnamese individuals, ensuring the most accurate translations of chats and contextual descriptions of the events.

This document is also not intended as legal evidence for prosecution. It is compiled as a summary of events unfolding online from July to November 2025, with the aim of providing interested readers with a coherent narrative of the story's progression, reducing information clutter.

Due to the gruesome nature of the case, images containing bloodshed will be blurred and obscured. The faces of other individuals appearing in the photos will also be concealed. We hope readers will not seek out these violent videos and images.

THE INCIDENT'S INITIAL APPEARANCE ON SOCIAL MEDIA

In the early morning of July 26, a 24-second video began circulating, depicting a nude man masturbating on a bathroom floor before another nude man swiftly used a cleaver to slash his neck and behead him within seconds. Blood splattered across the room, leaving his body in a pool of blood. He uttered, "I'm about to ejaculate," just before the decapitation.

Shortly after, a new 73-second video emerged, filmed from the perspective of a camera on the floor beside him, showing the same decapitation scene. They appeared to be conversing, but this video had no audio.

Finally, a series of photos surfaced later that day, depicting the process of dismembering his body, culminating in scenes where his heart, kidneys, penis, and other organs were cooked, picked up with chopsticks, and placed on a plate. The dish resembled a Vietnamese herbal stew, complete with red dates and goji berries.

Although unconfirmed by evidence, it is highly probable the victim voluntarily ended his life in this manner due to an extreme sexual fetish. In the video, he can also be seen shaking his head to expose more of his neck at the same moment.

The motive behind the murder was sexual gratification. The subsequent sale of content was only secondary.

An image leaked from a Chinese-language Telegram group shows: 98 Yuan to join the regular group. 198 Yuan to join the premium group.

These groups typically post brutal (Gore) videos. And this is where the videos of this beheading incident in Vietnam were first released.

In July 2025, the world-renowned website for shock videos, wa*********die.tv, published three extremely brutal videos and a number of images.

The three videos include:

Video 1: Tentatively titled "Rehearsal"

> In this video, there is a man whose face appears to be in his 30s, wearing a shirt, with a skinny-fat body type; this person is Nguyen Xuan Dat. Another person is wearing sportswear with three stripes, similar to Adidas, on both the jacket and pants, and is wearing an Anonymous hacker mask. Nguyen Xuan Dat begins to take off his shirt and positions his head on a cutting board as a test. The space in the video resembles an office with filing cabinets and a ceiling fan.
>
> The masked person picks up a black cleaver and practices mock chopping motions towards the neck. The video ends with the masked person embracing Nguyen Xuan Dat, as if offering comfort. Afterwards, both stand up and the video concludes.

The final scene of the "Rehearsal" video.

Video 2: Tentatively titled "**The Execution**"

The executioner and Nguyen Xuan Dat were both naked. Nguyen Xuan Dat lay on his back on a tarpaulin spread on the bathroom floor, with a wooden cutting board beneath his neck. The executioner wore a face mask. While Nguyen Xuan Dat was masturbating, the executioner delivered approximately 3-5 powerful chops. The sound of the cleaver was harsh and metallic; Dat's head immediately separated from his neck, killing him. The atmosphere was extremely tense, with the heavy breathing of the executioner audible, along with the distinct sound of traffic outside the scene, which could be heard clearly in the video.

Subsequently, the executioner began to butcher the victim's body. His knife skills were highly proficient. He made a clean incision from the neck down, severed the cartilage of the rib cage in the chest area, continued straight down to the pubic bone, and stopped. He then split the incision open sideways, aiming to cleanly remove the corpse's penis and testicles. The technique did not resemble that of someone dissecting a human body for the first time.

The scene was set up very professionally, with multiple video angles from several phone cameras mounted on tripods. This was to clearly document the event from every perspective.

Video 3: Tentatively titled "**Butchering**"

This video recorded the scene where the executioner dissected Nguyen Xuan Dat's body. He had finished separating the limbs and arranged them in a pot. The internal organs were soaked in a sink. The head and special parts such as the penis and testicles were neatly arranged on the dishes. The executioner continuously panned the camera to capture the image of Dat's clearly divided body. The space in the video looked like a kitchen, with a round stainless steel dining table, a sink, a bottle of dishwashing liquid, and a bottle of drinking water.

The executioner also showed his perversion, holding the victim's penis and inserting it into the hole of the head lying on the table, as if he was playing with it for fun.

In the photos posted by the perpetrator, there is an image of him having cooked a curry-like dish of Nguyen Xuan Dat's penis, testicles, and small internal organs.

Some people online said they saw a video of the executioner boiling Dat’s head in a pot of water. But the video has not been found yet.

Most notably, there is a photo of the executioner holding Nguyen Xuan Dat's head, still covered in blood, taking a picture in front of a mirror right after he had chopped it off. The photo shows that he has the following characteristics:

Stocky build, well-developed muscles.

Bald/balding, middle-aged.

Monolid eyes.

Wearing a blue face mask. Some speculate it is a military-issue mask.

Scar above the left eyebrow.

A dark birthmark running from the right bicep up to the armpit.

A tattoo on the right bicep, visible when zoomed in close: Ngày ấy 13-9 (That Day 13-9)

The image may have been flipped; it could also be his left arm.

THE VICTIM
NGUYEN XUAN DAT
WHO WAS HE?

Due to their shocking nature, the videos rapidly spread across international and Vietnamese online forums, fueling the curiosity of thousands.

And Nguyen Xuan Dat's Facebook account was found.

https://www.facebook.com/nguyen.xuan.at.598950

The last status was posted on this Facebook account on June 10, 2025, meaning it was about one month before the incident went viral.

A large number of people, both from Vietnam and abroad such as China, South Korea,... began flocking to Nguyen Xuan Dat's Facebook to search for information.

The online community dug up posts from Dat's account dating back several years. The victim repeatedly posted about wanting to die by having someone behead him.

The victim was a member of male homosexual groups. He notably joined a group named: "Thích chặt đầu" (Likes Beheading). The friends on his friend list were also anonymous individuals sharing the same fetish. For example, the character "Hoa Troi" will be discussed later.

This chat image was widely circulated and was even translated into English by the renowned news outlet Vice in their coverage of this case.

However, this information requires verification; there is no confirmed evidence that this is indeed Dat's chat log.

Digging deeper, the online community discovered that Dat had participated in various gore forums or homosexual forums using the nickname: datbehead or datbeheading.

The account was created in 2019. The last recorded activity on this system was on January 25, 2025.

Are you for real? If so, please inbox me to discuss.

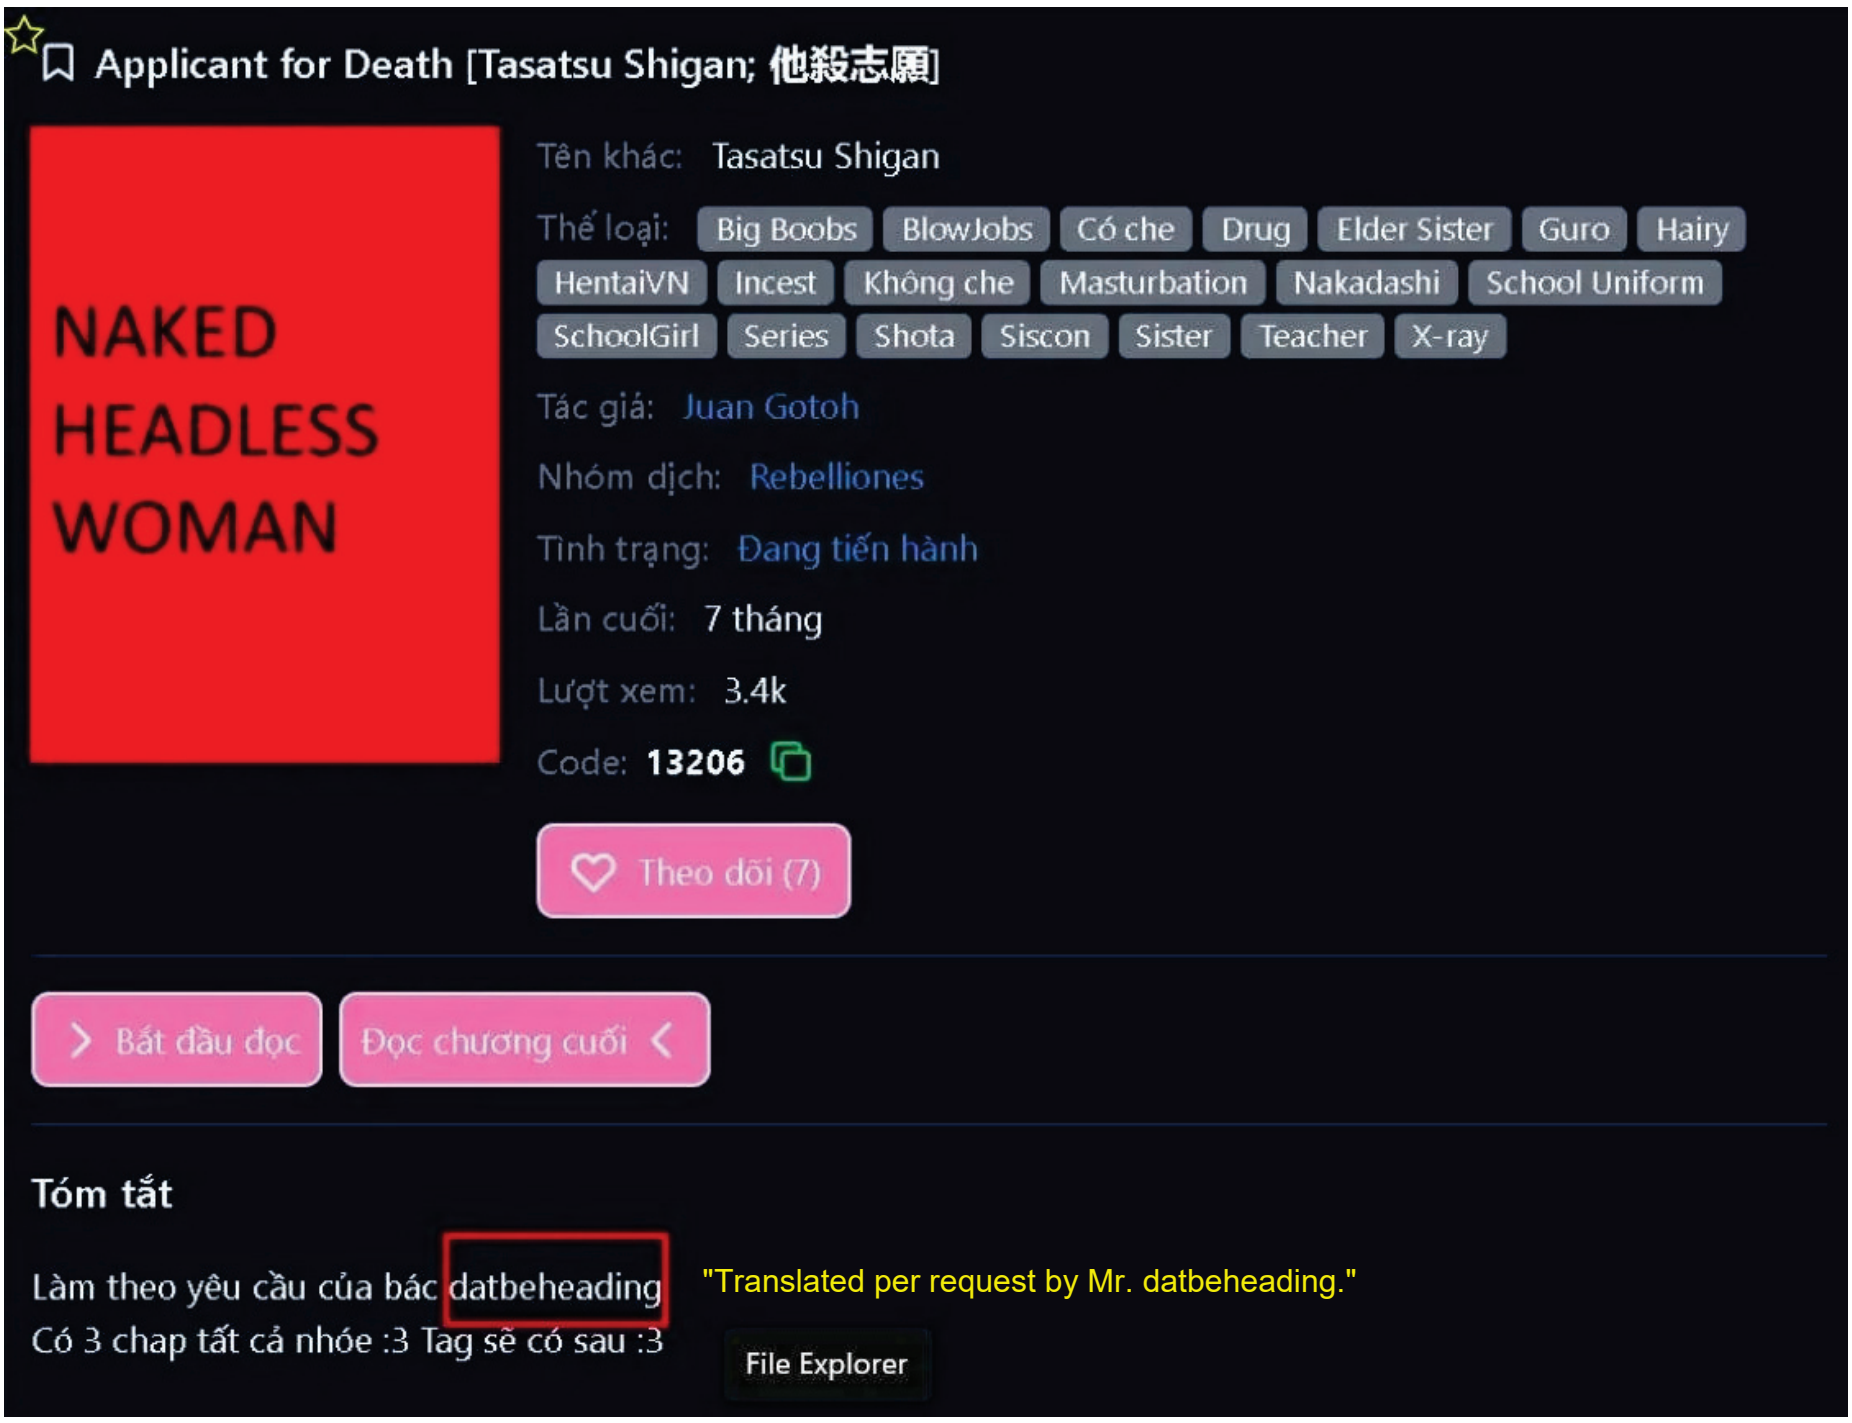
Expanding the search using the nickname "Datbeheading." On a Hentai adult content forum, which also posts brutal sexual content (Guro).

The compilation team of this forum published a Vietnamese translation of a manga titled "Naked Headless Woman" with the note: "Translated per request by Mr. datbeheading."



This is a short manga in the brutal erotic genre "Guro," created by a Japanese author. In this series, a male character has sexual intercourse with two female characters. At the moment of the male character's climax, one of the female characters wields a sword and beheads him. Subsequently, the male character's severed head remains able to speak for a few more seconds, describing the sensation of ecstasy.

Perhaps Datbeheading was an avid fan of this guro manga series and regarded it as the guiding principle of his life. The victim used social media for years to search for someone who could help him achieve the decapitation of himself. The preferred candidate for this role was a woman, mirroring the narrative of the manga.

Based on the posts by the account "Datbehead" while seeking sexual encounters on homosexual forums, the following phone numbers are believed to belong to Dat: 0332624220; 0339055289. Tracing these numbers led to a Zalo account, also believed to be Dat's, under the name "Datbehead" with a date of birth listed as March 10, 1989.

Someone attempted to hack into Nguyen Xuan Dat's Facebook account and received a prompt to send an SMS code to a phone number ending in 20. This is likely the number 0332624220.

Netizens messaged accounts in Dat's friend list. An anonymous account named "Phi Lê" responded. This person claimed to have frequently chatted with Dat online and had met him once in person.

According to the information provided by this source, Dat lived and worked selling seafood at Phùng Khoang Market, Hanoi. His year of birth was 1989 (matching the Zalo information above). Another crucial piece of information was that this person knew the executioner's name was "Chung"; more details on this will be clarified later.

With the limited initial information available, netizens continued their deep dive and uncovered more specific details, believed to be about the victim himself, Nguyen Xuan Dat.

Nguyen Xuan Dat is listed here as the son of Mrs. Nguyen Thi Mien. Their registered residence is in Hau Trung 2 Village, Hong Bach Commune, Dong Hung District, Thai Binh Province (old address). Notably, his date of birth is also March 10, 1989.

Several individuals on forums directly called the head of Hau Trung 2 Village. The village head confirmed that there is a case of a person named Nguyen Xuan Dat who left home and has been missing for 4-5 years without any contact. The family consists only of the mother and son. The mother, staying at home, is reported to have mental health issues.

If that is true, it would provide a logical explanation for why Dat went missing and why, to this day, no relatives have been searching for him or filed a missing person's report.

Based on the information above, the online community narrowed down the location and speculated about Nguyen Xuan Dat's house in Hau Trung 2 Village.

This information is for reference only and is not yet reliable.

Following a detail with no certainty: Dat sold seafood at Phung Khoang Market. Speculating that the crime scene occurred here, some individuals on online forums went to this market and searched online for real-world information about a person named Nguyen Xuan Dat.

However, all the information gathered remained highly vague and unreliable.

Name: Nguyễn Xuân Đạt

Date of Birth: March 10, 1989

Mother: Nguyễn Thị Miên, reported to have mental health conditions.

Hometown: Hậu Trung 2 Village, Hồng Bạch Commune, Đông Hưng District, former Thái Bình Province.

Occupation: Seafood vendor at Phùng Khoang Market, Hanoi.

Gender: Male

Sexual Orientation: Homosexual

Sexual Preferences: BDSM, violence, torture, boss-slave dynamics. Wish to be beheaded at the moment of ejaculation. Suspected of copying the Japanese Guro.

The information compiled here is based on online community discussions. It may be accurate, it may be false, and requires further verification. Is there a genuine connection between the account "Datbeheading," belonging to someone born in 1989, and the individual named Nguyen Xuan Dat, also born in 1989 from Hau Trung 2 village, who has been missing for many years?

III.

INITIAL SPECULATIONS REGARDING THE CRIME SCENE

Upon close examination of the "BUTCHERING" video, when the executioner pans the camera, a detail appears: a small plastic water bottle on the table. The packaging of this bottle is suspected to resemble that of LaVie brand. This suggests the crime scene likely occurred in Vietnam.

However, if it took place in a house within Phung Khoang Market itself, that would be extremely audacious. Hanoi is densely populated with limited space; the executioner could not have acted so recklessly there.

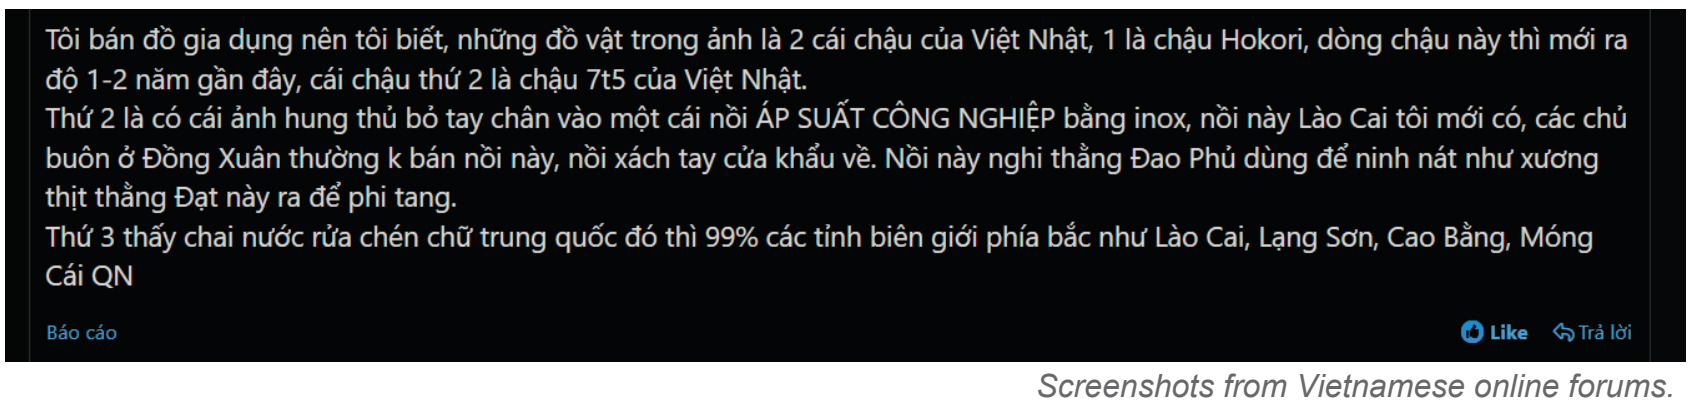
Some individuals in the online community confirmed familiarity with items appearing in the "Butchering" video, noting they are commonly used in Northern border provinces.



Screenshots from Vietnamese online forums.

"I sell household goods, so I know. The kitchen tools in this video are only found in Northern Vietnam. I suspect the Executioner used this type of stewing pot to boil Dat's bones to destroy evidence."

That dishwashing liquid bottle with Chinese characters - 99% it's from Northern border provinces like Lao Cai, Lang Son, Cao Bang, Mong Cai, Quang Ninh."

In this video, a detail appears: a yellow dishwashing liquid bottle with a Chinese brand. Online searches confirm this is a Chinese dishwashing liquid, though it is also sold in Vietnam.

The online community also confirmed that this type of dishwashing liquid is commonly found in provinces bordering China. Combined with the detail of the LaVie water bottle, suspicion arises that the incident occurred in a border province rather than in China itself.

Does this suggest the executioner could be a Vietnamese person living in the Northern border region?

IV.

INITIAL SPECULATIONS REGARDING THE TIME OF THE EXECUTION

The online community began expressing concern about the executioner.

Who is this person? What is their nationality? Did they have a prior relationship with Dat? Where did the incident take place? Was the crime scene in Vietnam or abroad? Did the executioner act alone to satisfy a bestial sexual urge, or were they carrying out a task for an organization behind the scenes? Could there be accomplices?

Dat's contacts, such as forum members and friends on his friend list, were thoroughly scrutinized.

A notable status was posted on Dat's Facebook on January 25, 2025: "3 hours left until the execution."

As mentioned earlier, the forum system recorded the last activity of the "Datbeheading" account also on January 25, 2025.

This raises the question: Could January 25, 2025, be the date Dat and the Executioner agreed upon to carry out the execution?

If so, why then, on June 10, 2025, did Dat's account post its final status: "From today, I'm logging off this account for good!"?

A rather plausible theory proposed by the online community is that Dat actually died on January 25, 2025. Subsequently, the executioner took Dat's phone and continued to use his social media accounts. It was also this individual who updated the final status on June 10, 2025, approximately one month before the incident went viral.

Ảnh chụp từ Facebook Nguyễn Xuân Đạt

The anonymous account, nickname "Phi Lê," in Dat's friend list, continued to release a screenshot of a chat log.

This is a chat log from the Facebook account of Nguyen Xuan Dat messaging Phi Le. Or it was sent to someone else, and that person forwarded it to Phi Le. The message, dated February 25, 2025, briefly stated that Dat had been beheaded.

Thus, the initial hypothesis put forth by the online community gains further "credibility": Dat actually died on January 25, 2025. Afterward, the executioner took Dat's phone and continued to use his social media accounts. It was also this individual who updated the final status on June 10, 2025, approximately one month before the incident went viral.

However, more data is still required to formally establish January 25, 2025, as the date of Dat's death.

INITIAL SPECULATIONS REGARDING THE EXECUTIONER

A friend of Dat's shared a screenshot of a message exchange with Dat timestamped 13:18 on a Monday, though the specific date is unclear. Prior messages in the conversation discussed plans for the beheading.

These messages mentioned a person named "Chung" who had agreed to perform the beheading but kept delaying it. Dat's friend was also aware of this "Chung's" existence.

This suggests Chung may have had broad connections within Dat's social circle. A question arises: had Chung been involved in beheading anyone else before Dat?

I'm ready, waiting to the time.

Who will do it?

Chung?

Nah, another person

Why you don't let Chung do it?

Waiting for Chung is difficult

What's wrong?

He agreed but keeps delaying the time.

Screenshot posted by Dat's friend.

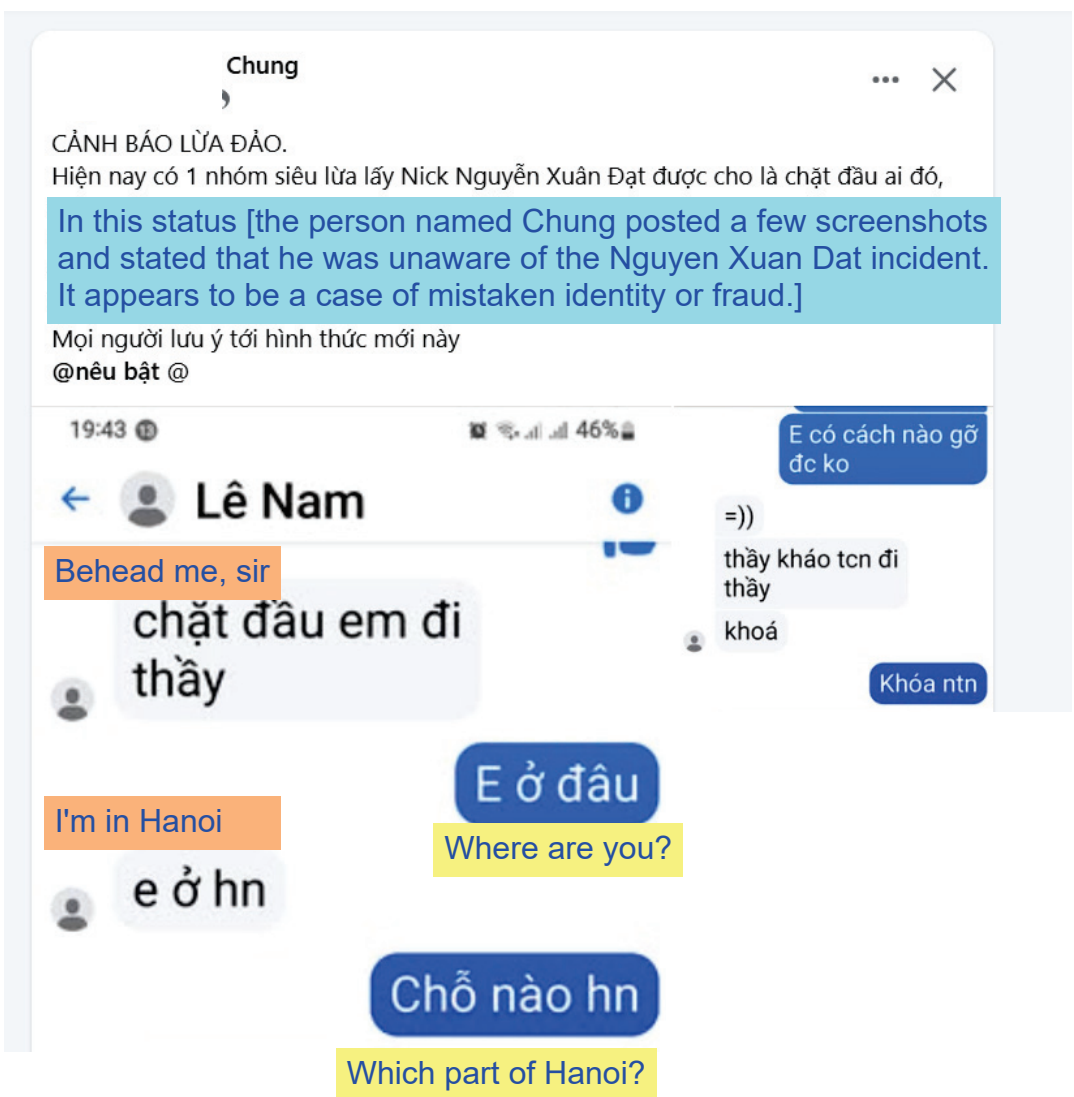
The online community had only one lead: to scour Nguyen Xuan Dat's Facebook and his friends list for anyone named "Chung."

Several individuals named "Chung" in the victim's friend list were accused by the online community of being the executioner. One of these individuals had a clear, publicly identifiable profile, but the accusation linking him to the "Chung" in the story was baseless. There was no additional data to corroborate this claim.

However, this person's behavior was somewhat unusual. On a 2022 post by Dat discussing the topic of beheading, this individual had clicked "Like." But after the incident went viral and this person was named by the online community, he silently unliked the post. He then posted a status claiming no knowledge of the matter, but this action had already been captured in screenshots by the netizens.

Feeling bored, looking for someone to call and chat about "beheading." Anyone interested?

The person named Chung liked Dat's status in 2022.



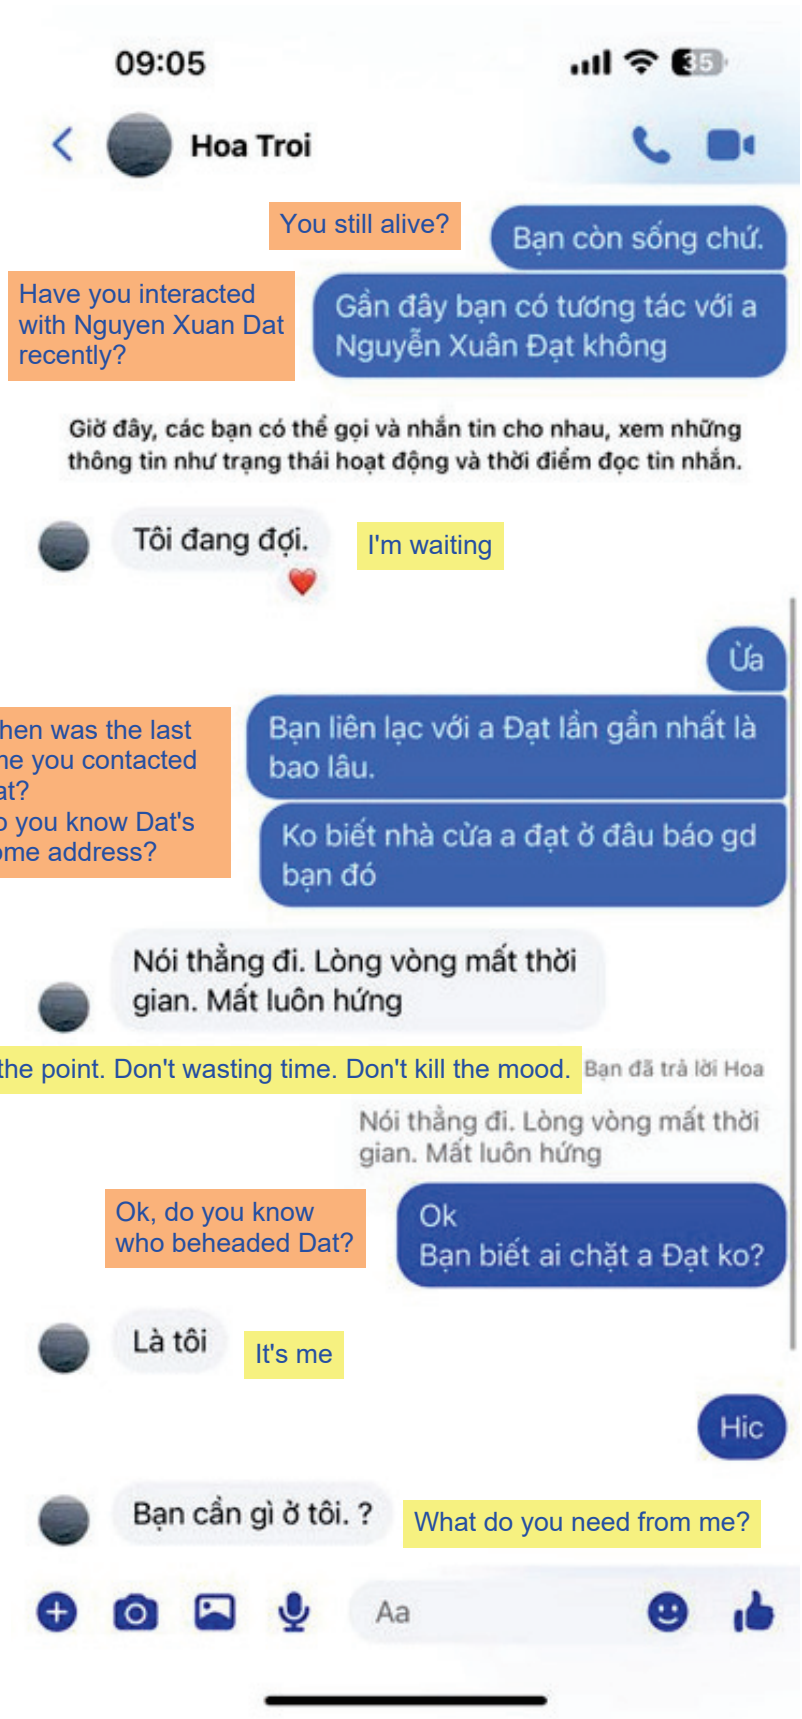
The individual named Chung denied any involvement with Dat but responded to messages in a peculiar manner.

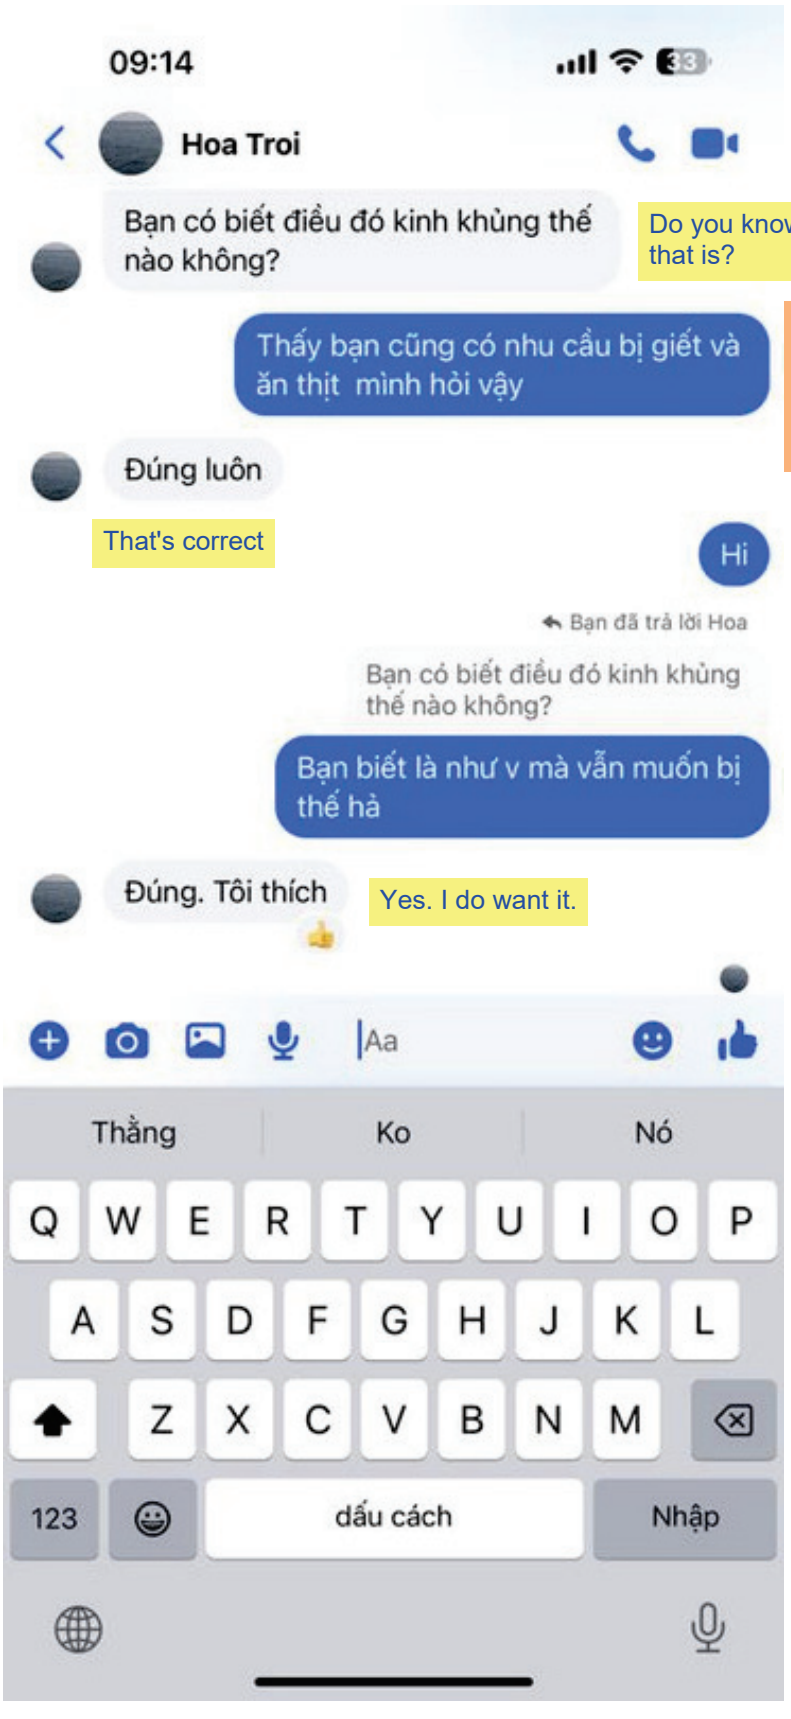
When a stranger texted, "Behead me, sir," this individual immediately replied, "Where are you? Which part of Hanoi?"

However, there remains absolutely no indication that this individual is directly involved.

Next, someone messaged Dat's friend, the account named "Hoa Troi." This is an account that has also posted numerous times over the years, even before Dat, about a desire to die.

This account confessed to being the executioner. However, the confession was brief, consisting of just a few lines with little substance, and then stopped.





https://www.facebook.com/hoa.troi.520

Is Hoa Troi the "Chung" mentioned by Dat and Phi Le? Or has the real Hoa Troi also fallen victim to the executioner's blade in the same incident as Dat, and the killer is now also using this account?

Or are these simply opportunistic, attention-seeking messages from some disturbed individual using this anonymous account?

A few days later, Nguyen Xuan Dat's Facebook page became highly popular. Many foreigners also came to comment.

Then, in early August, Dat's Facebook account was locked and became inaccessible.

Could it be that the Executioner maintained Nguyen Xuan Dat's Facebook to read the online community's speculations and comments, and then proceeded to lock the account himself?

VI.

FADING INTO OBSCURITY

SUMMARY,

Dat died on January 25, 2025.

The executioner continued to use Dat's Facebook.

The executioner used Dat's Facebook to message Phi Le in February 2025, briefly stating that Dat had been beheaded.

In June 2025, Nguyen Xuan Dat's Facebook posted its final status about permanently logging off the account. It is suspected this was posted by the executioner.

However, the account was only permanently locked in early August 2025.

Was the crime scene in Vietnam or China?

Was Phung Khoang Market the crime scene? Or was it in a Northern province bordering China?

Is the executioner Vietnamese or Chinese?

The sounds of motorcycles and dogs barking in the video suggest the scene was near a main road?

Is the executioner's name really Chung? Or is that an alias?

Was the execution of Dat his first time, or has he done this multiple times with different people? The actions of butchering and processing the body in the video were extremely professional, unlike someone doing it for the first time.

Is Hoa Troi still alive? Who is really controlling the Hoa Troi Facebook account?

Is it possible Hoa Troi died years ago, similar to Dat, and the executioner is also controlling the Hoa Troi account?

Is the name "Chung" known within the LGBT and BDSM communities?

Everything remained at the level of questions, with no solid basis for confirmation, except for the seemingly legitimate fact that Dat passed away on January 25, 2025. By the latter half of August, the incident gradually subsided and received less public attention.

Just when it seemed this case, which had horrified the world, would forever remain without new information, it began to resurface at the end of November...

VII.

NOVEMBER, THE EXECUTIONER UNMASKED

From late August to early November 2025, while Dat's Facebook was locked and public interest had significantly waned, a few individuals continued to monitor and dig deeper into the clues. Among them, the YouTube channel "Kẻ Tò Mò" (The Curious One) stood out.

This channel produced several videos using 3D software to reconstruct the crime scene based on their assumptions. However, these hypotheses also lacked persuasiveness.

Then, one day in the third week of November, an anonymous Facebook account posted in a group dedicated to the Nguyen Xuan Dat case, revealing previously undisclosed chat logs and images related to the incident. This person released chat conversations with Dat.

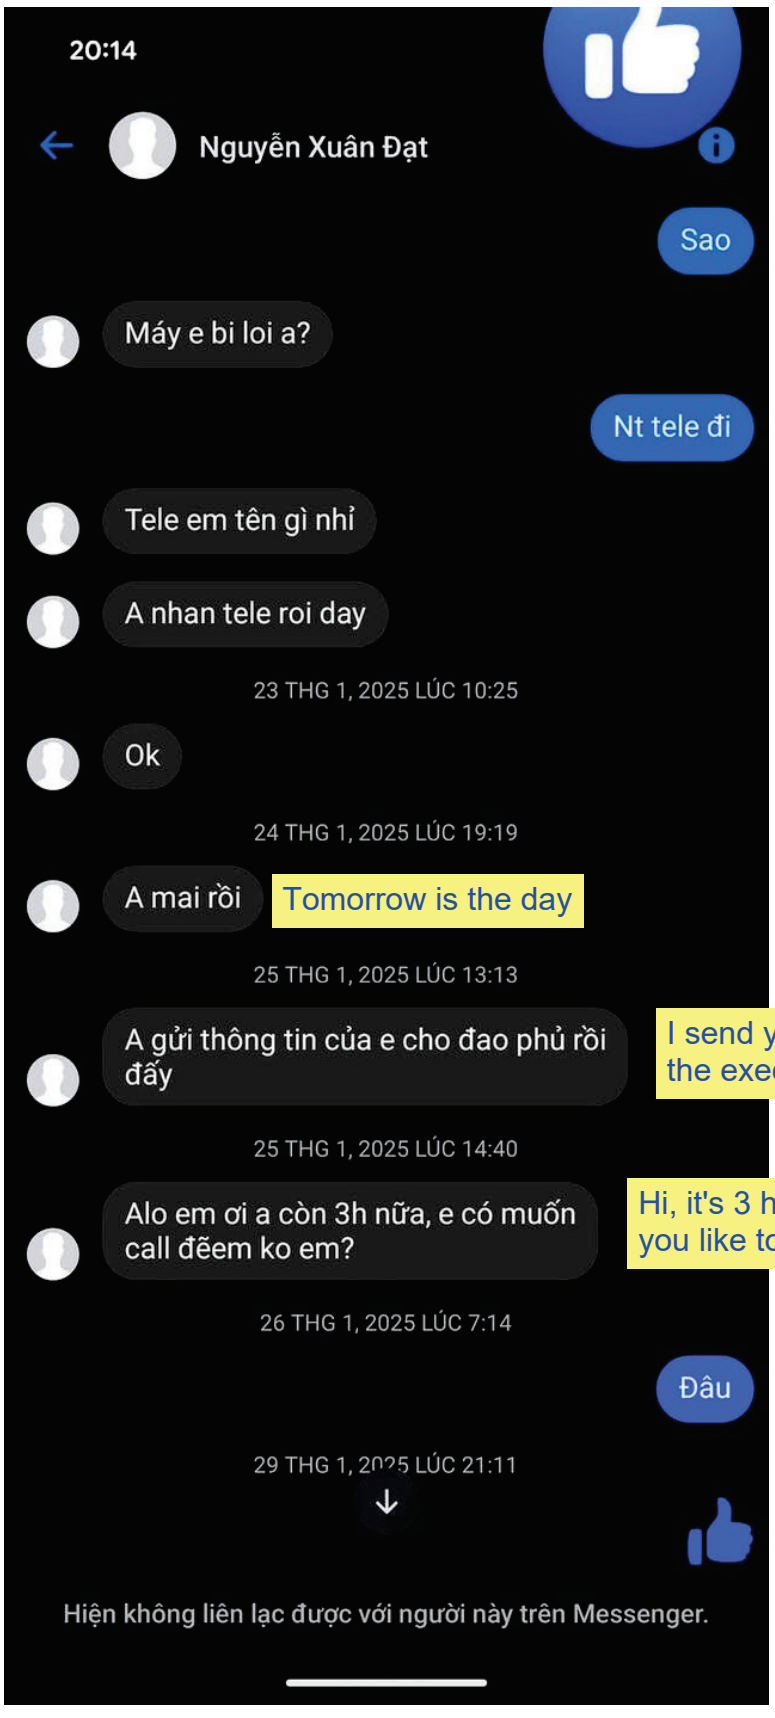
Dat's last message to this person was at 14:40 on January 25, 2025, which was the 26th day of the last lunar month in the Year of the Dragon (Giáp Thìn), meaning there were only 4 days left until the Lunar New Year of the Snake (Ất Tỵ).

Dat said that the execution would take place in 3 hours. Thus, based on this information, the execution time can be estimated to be around 17:30 - 18:00 on January 25, 2025.

Earlier in the chat, Dat also mentioned that he had shared this person's information with the executioner. This can be interpreted as this person also having the intention to be beheaded by the executioner, similar to Dat.

At this point, this person has come forward with this information. It can be speculated that they have changed their mind, no longer wish to die, and want to step forward to expose the truth and seek justice for Nguyen Xuan Dat—even though Dat voluntarily sought beheading.

Based on the conversational style and Dat's eagerness to help this person find the executioner, it appears the two were very close. The scrolling arrow indicates there were more messages after this.

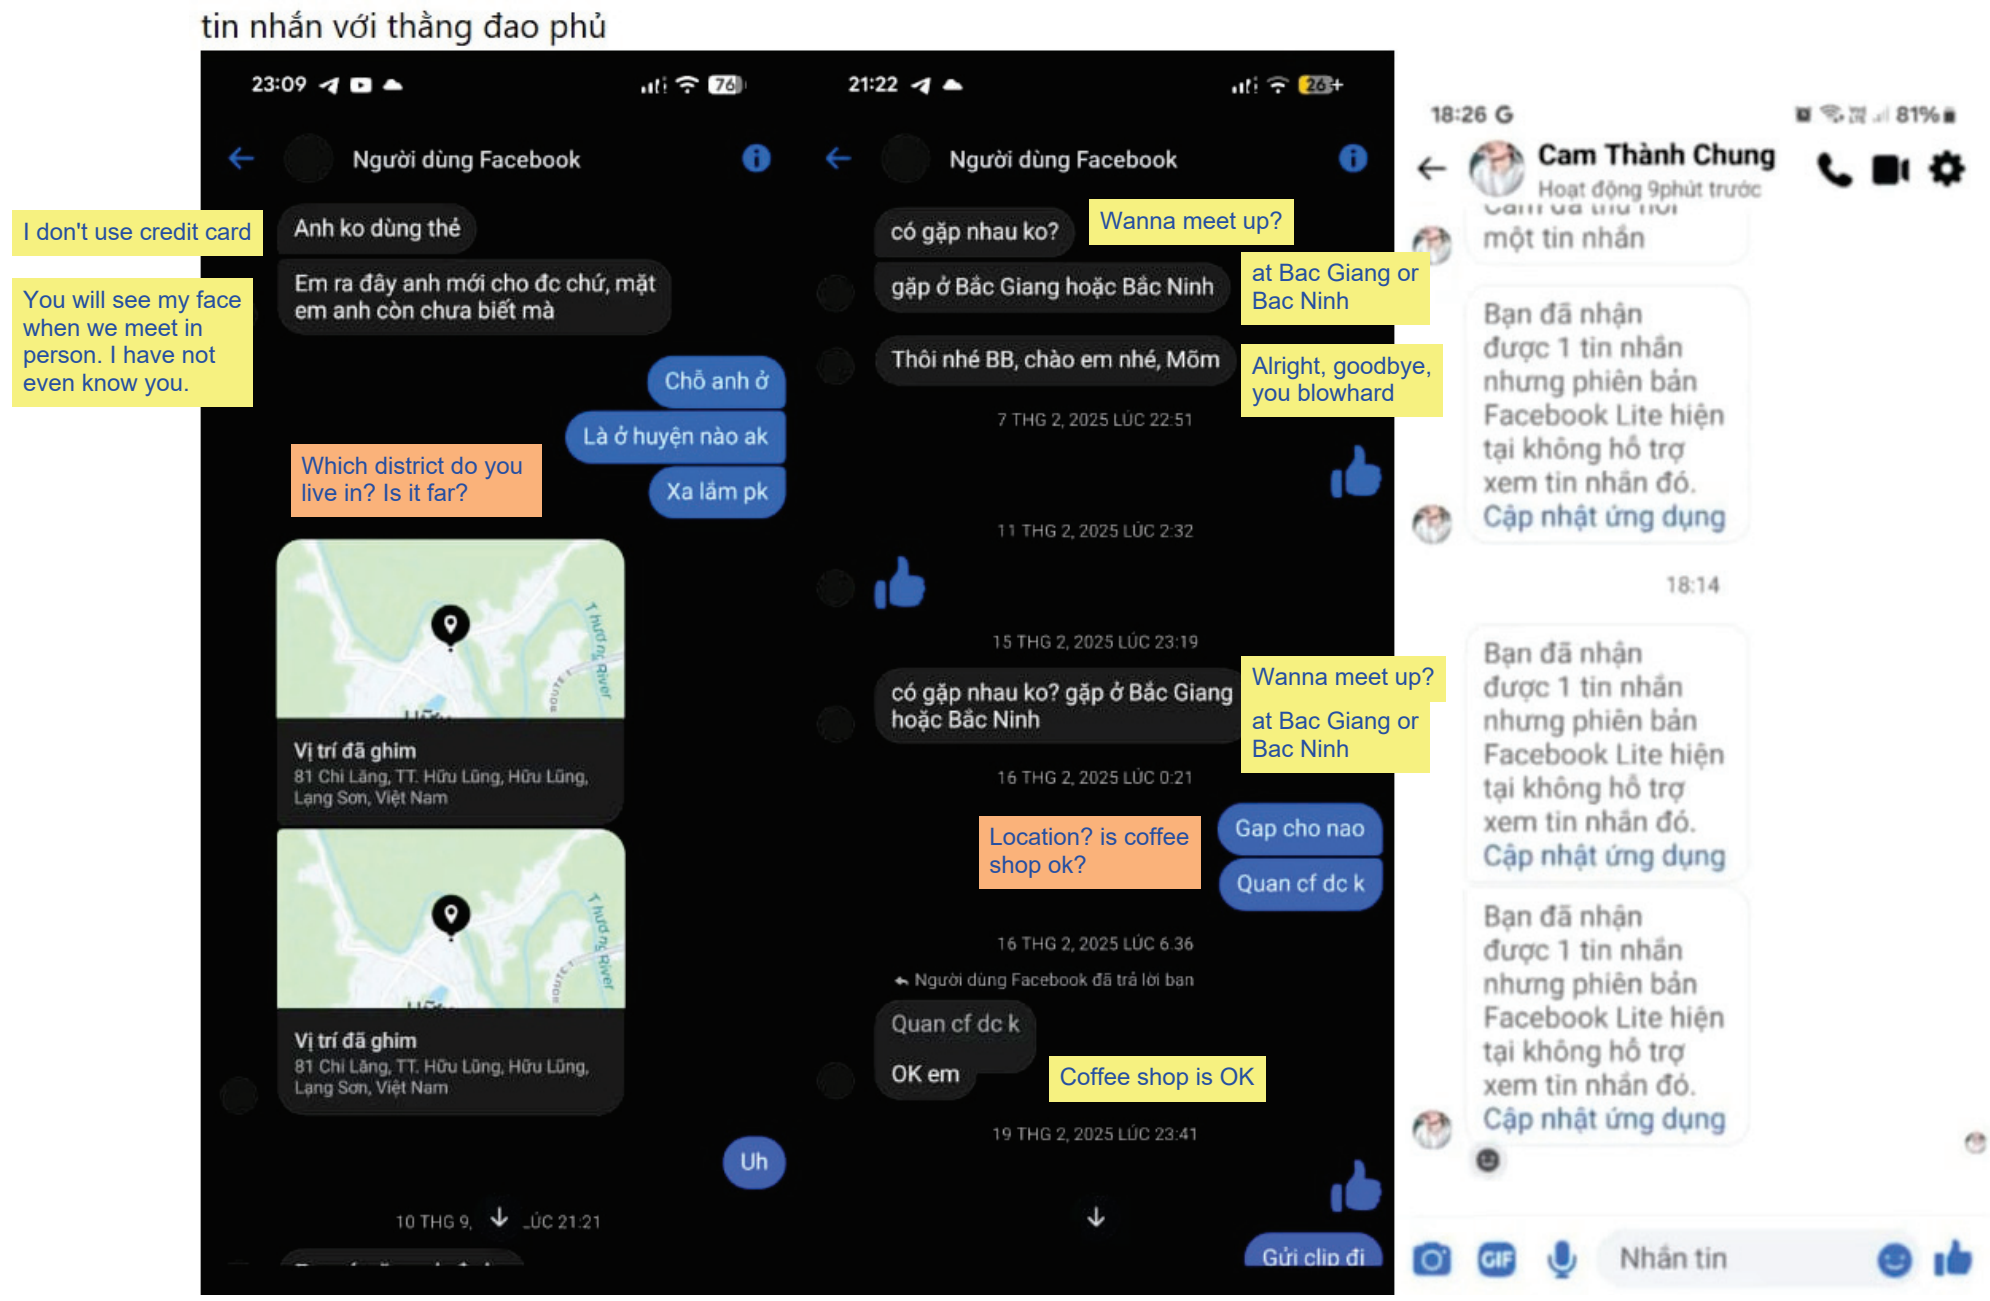


The chat log between the anonymous account and Nguyen Xuan Dat.

It is possible that the chat log leaked by Phi Le—where the executioner used Dat's account to announce "Dat has been beheaded"—was actually sent to *this person*. This person then screenshot it and sent it to Phi Le, who subsequently posted it online.

According to Phi Le, he only met Dat once and did not seem to be as genuinely close to Dat as this person appears to have been.

This person continued to release chat logs with the executioner. The executioner was using a Facebook account named "Cam Thành Chung." Could this be the "Chung" mentioned in the stories told by Dat and Phi Le?

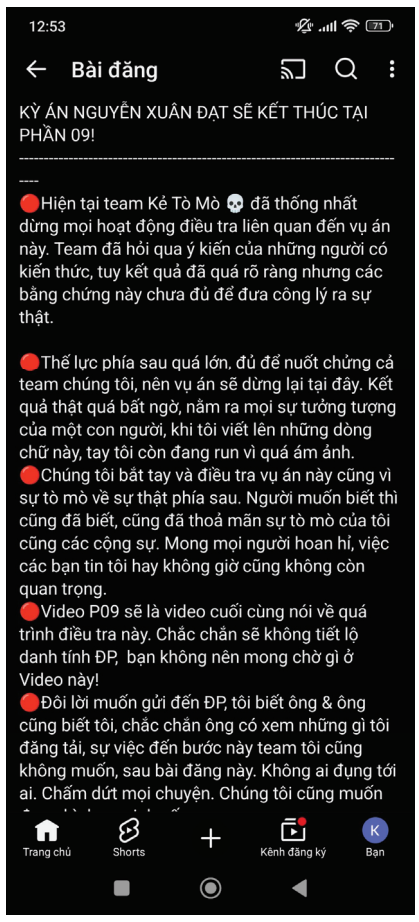


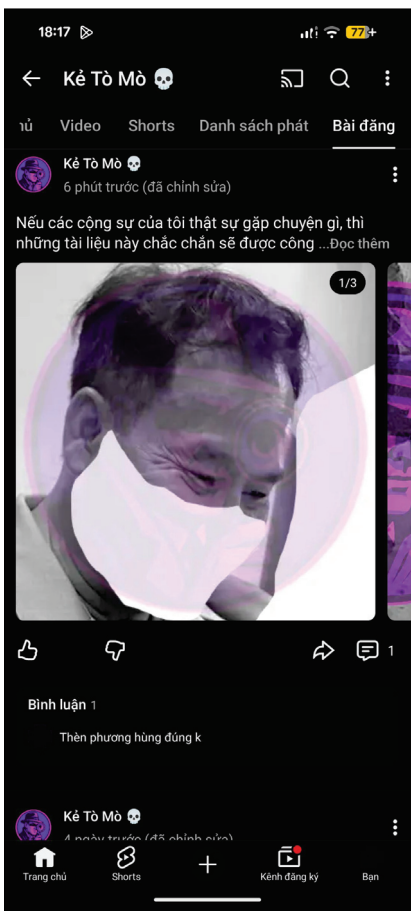
The chat log between the anonymous account and Cam Thanh Chung.

Cam Thanh Chung also communicated with and sent an address to the anonymous individual to discuss the beheading matter at: 81 Chi Lang, Huu Lung Town, Lang Son Province. However, this person suggested meeting at a cafe instead.

Google Map

With his sharp instincts and based on the clues provided by the anonymous source, the YouTuber "Kẻ Tò Mò" (The Curious One) traced all internet data related to the name Cam Thành Chung. He began releasing information claiming he had identified the executioner, simultaneously publishing a half-faced photo of an individual.

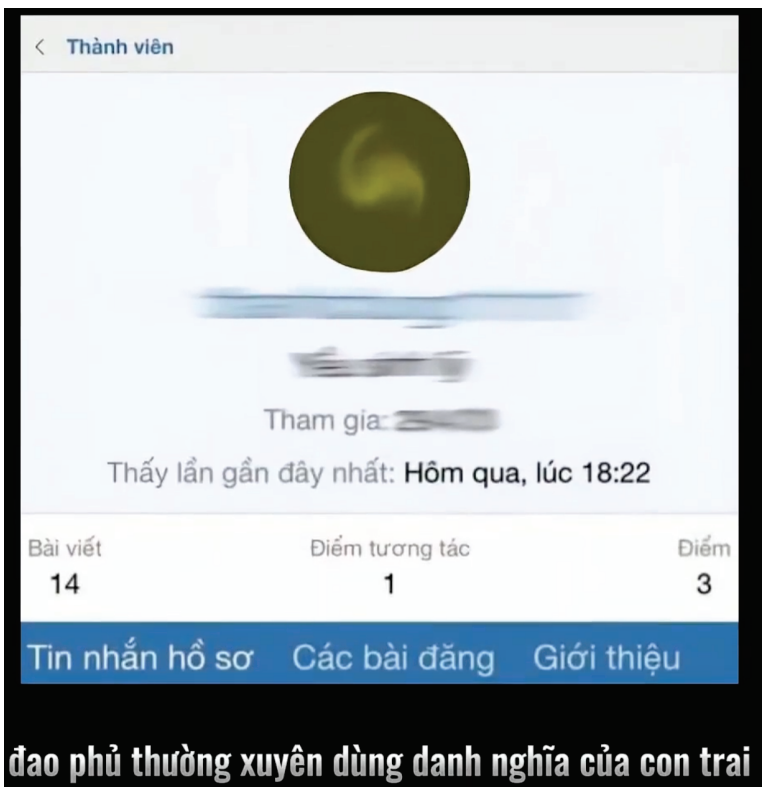




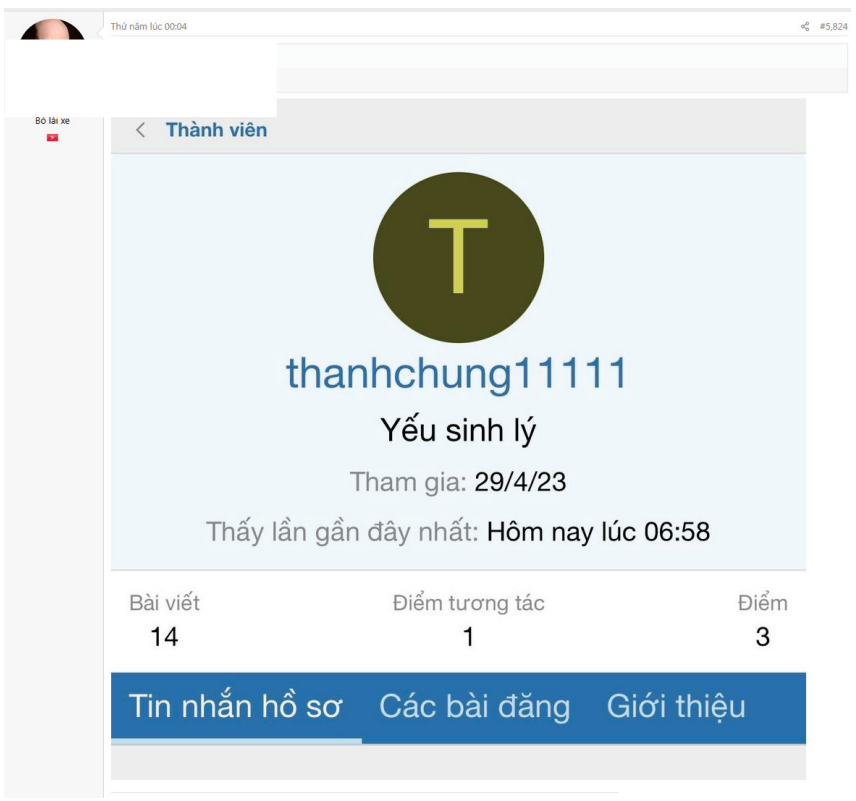
These statuses generally announced that he (Ke To Mo Youtube channel) had clearly identified the executioner and the location of the execution scene. However, a few days later, he stated that the forces behind the executioner were too powerful. He requested to withdraw from the investigation. Finally, he posted a half-faced photo of someone, saying that if anything happened to him, all this information would be made public.

Screenshot from the YouTube channel "Kẻ Tò Mò" (The Curious One).

Even more notably, the YouTuber "Kẻ Tò Mò" released a blurred image. He claimed the blurred content was the username of the executioner active on social media forums. He also asserted that all the executioner's anonymous social media accounts used the name of the executioner's son.



Posted by Youtube Kẻ Tò Mỏ



The executioner's forum username has been uncovered by the online community.

That was all the hint needed. In the early hours of November 20th, the online community wasted no time with the clue from "Kẻ Tò Mò". They uncovered a username: thanhchung11111

Continuing the trace, the usernames **thanhchung11111**, **thanhchung1111**, and **thanhchung111** were found across various anonymous forums and on social media platforms like X.com (Twitter), Instagram, and TikTok.

Furthermore, they discovered an account closely linked to "thanhchung" named **doansangls**.

thanhchung11111 follows doansangls on X.com

Every lead pointed to a single name: **doansangls**.

They proceeded to search on Facebook using the address: https://www.facebook.com/doansangls. The result was easily found: a Facebook account with a clear identity, showing the person's face, location, and occupation, belonging to someone named **Đoàn Sáng**.

The Facebook account Đoàn Sáng is "doansangls" on Instagram.

WHO IS ĐOÀN SÁNG ???

Đoàn Sáng's full name is Đoàn Văn Sáng. He is a former deputy principal of Market Management Department No. 4 in Lạng Sơn province, Vietnam. He retired early in 2025 at the age of 59.

He is also the clan head of the Doan family in Lang Son province. This clan is very large, with thousands of members.

The official Facebook account of Mr. Doan Van Sang, named "Đoàn Sáng," once posted a notice searching for lost identification documents under the name "Đoàn Văn Sáng." His phone number is listed as 0936600662, with a contact address at 195 Nguyen Phi Khanh, Lang Son City.

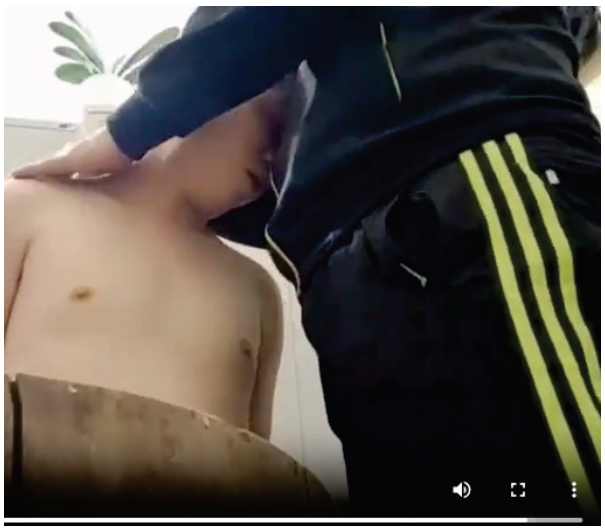
Accessing Doan Sang's Facebook before it was locked, it's clear he has two sons. The elder son's name is D.N.Thanh Chung.

This son is also very active on social media, similar to his father. He has frequently posted photos of his student ID and name tags online, making it easy to verify his real name is Thanh Chung. Another quite coincidental detail is that his birthday is September 13th. This matches the "That Day 13-9" tattoo on the executioner's bicep.

Is there a connection between the username "thanhchung1111," the tattoo "That Day 13-9," and Mr. Sang's son named Thanh Chung, who was born on September 13th?

Image posted on the son's story.

Thông tin do người con tự đăng lên story FB

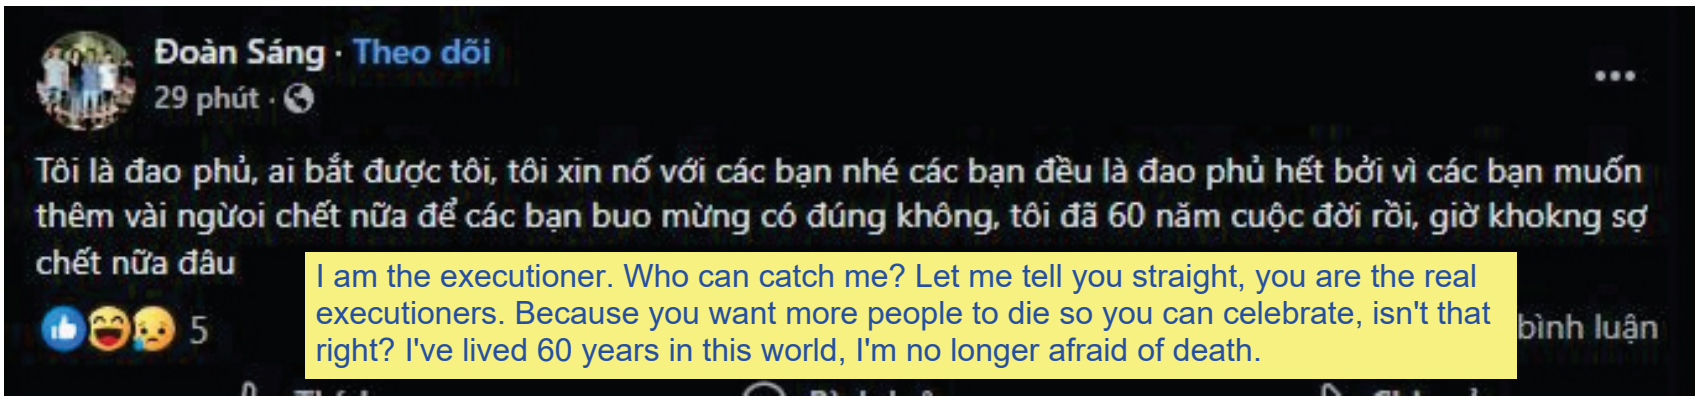


Frame from the "Rehearsal" video.

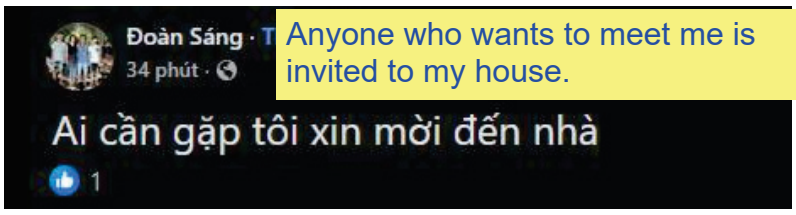
According to information from their social media accounts, this son, Thanh Chung, drives a car with license plate 011.11. Doan Van Sang drives a Mercedes with license plate 088.88, indicating a well-off family background. The number 011.11 seems familiar once again.

In the stories posted by the son, he appears wearing a sportswear set with three stripes on greenish-yellow pants. The executioner also wore similar pants in the "Rehearsal" video. However, the executioner's physique in that video was large, and his hairline was receding/balding. It was not an cool hairstyle like this son has. Therefore, there is no basis to claim this son is involved in the executioner's videos as speculated by netizens.

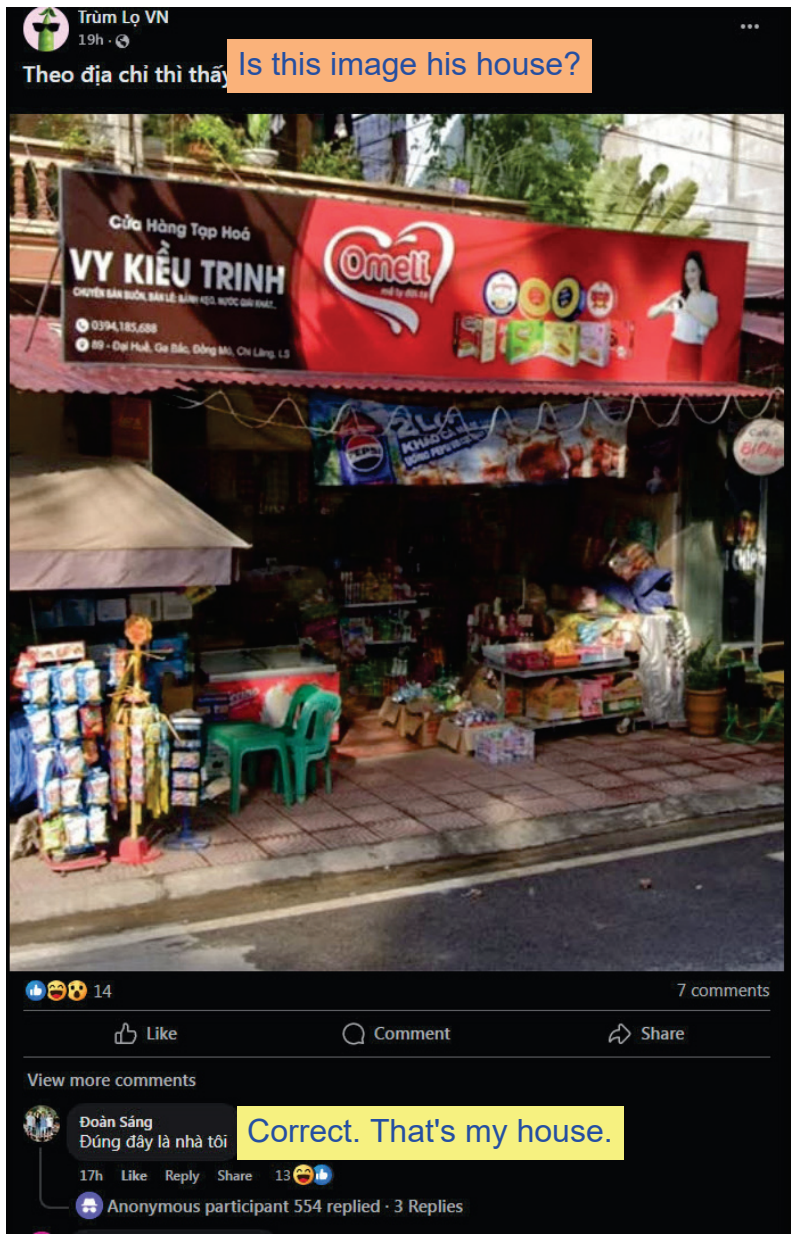
By the evening of November 20th, as online activity surged dramatically after months of quiet, the accounts of Doan Sang and his son Thanh Chung began showing signs of losing control. They directly entered a Facebook group dedicated to followers of this case to post statuses.



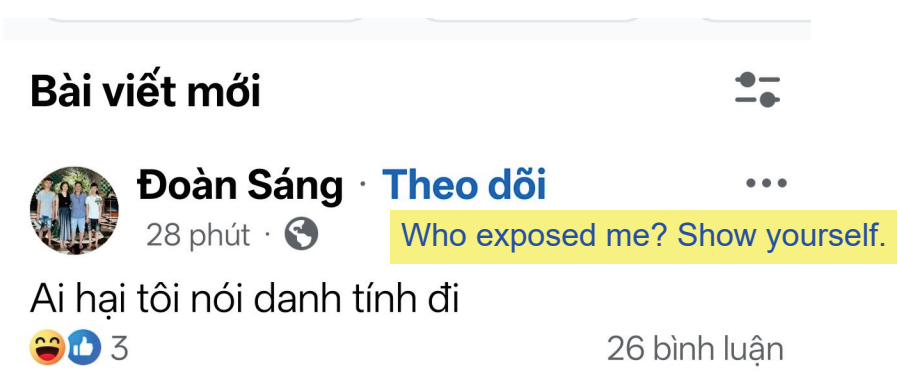
Facebook account "Đoàn Sáng" claims to be the executioner.



Đoàn Sáng challenged the online community to come to his house.



Đoàn Sáng confirmed that 89 Đại Huế, Chi Lăng, Lạng Sơn is his house.



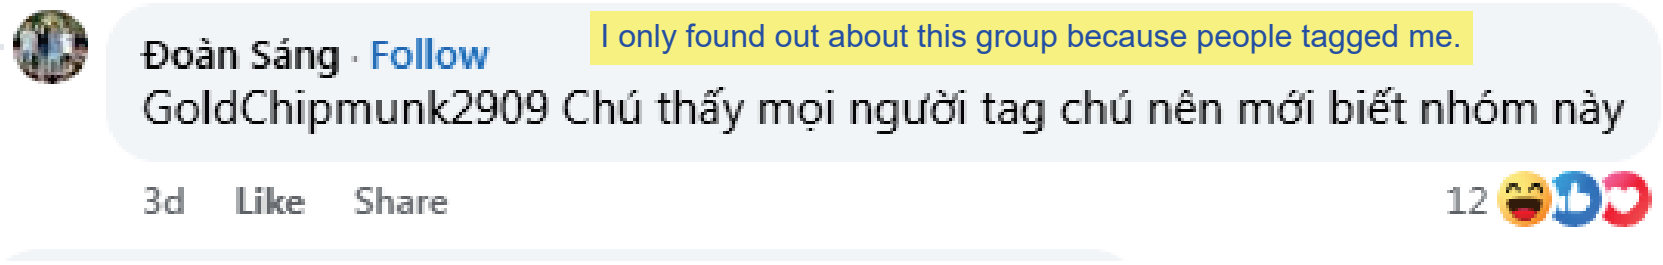
Đoàn Sáng is hunting for the person who exposed him.

Mr. Sang's actions are perplexing. Why would an "ordinary" person claim to be the executioner?

When someone posted about the address 89 Dai Hue, Chi Lang, Lang Son, Mr. Sang commented to confirm it was his house.

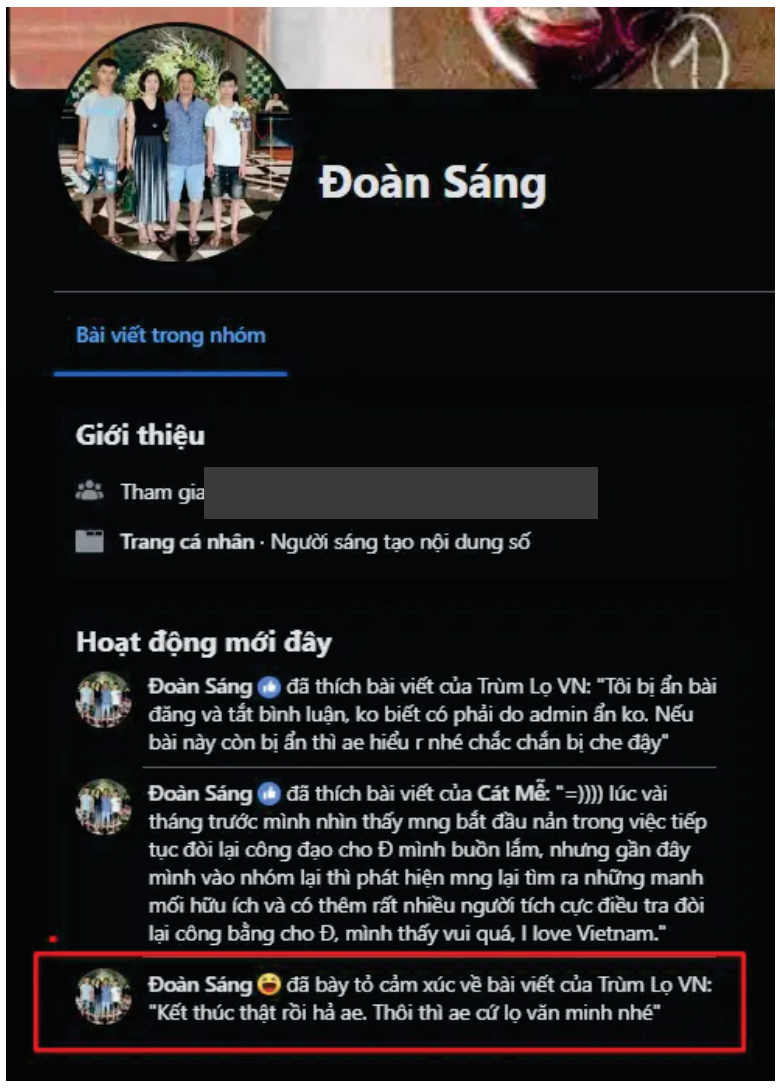
However, this address differs from the one he previously posted when searching for his wallet. Could this be a second property of his, or is it merely an act of false admission to mislead public opinion?

Subsequently, Sang claimed he had just joined the group because someone tagged him. This is untrue; Sang had been lurking in the group for months to monitor the situation. As the incident heated up, he began to lose composure. He left the group and rejoined to erase his activity history, then proceeded to post uncontrolled statuses.

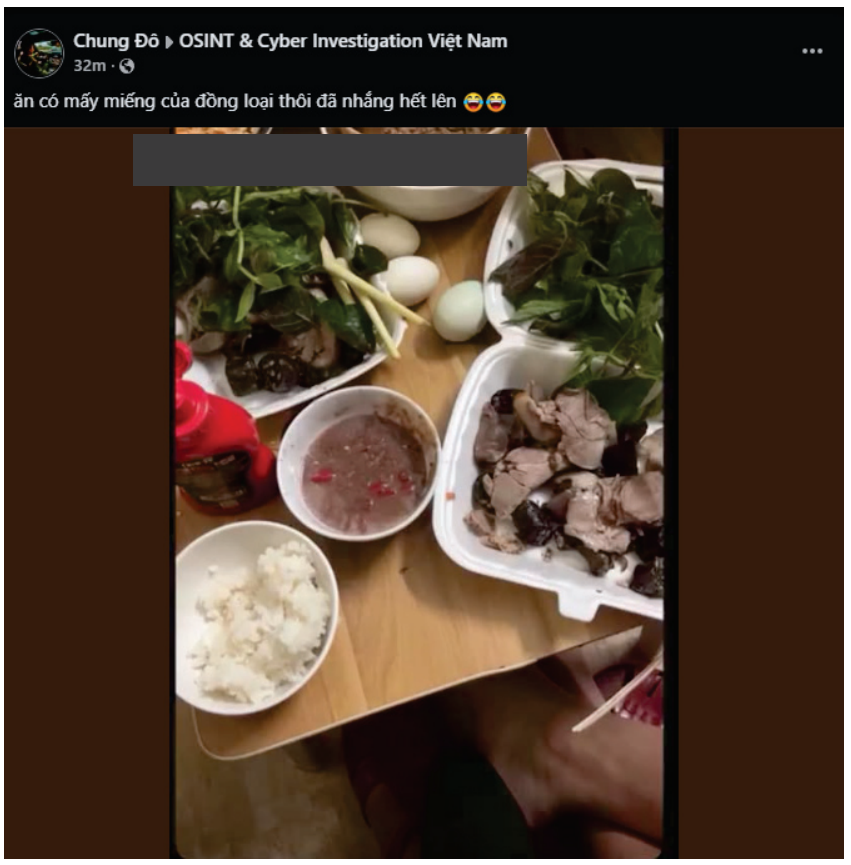


Đoàn Sáng admitted that he had just joined the group.

However, a group member had already captured screenshots of Sang's activity history. Sang had been following and interacting with others' posts even before the events of November 20th unfolded. In early November, when someone posted expressing pessimism and frustration about the lack of progress in finding the executioner, Sang even reacted with a "Haha" to that post.



Sang's activity history dates back a long time.



The son Thanh Chung's story when he realized the situation was escalating to a climax.

Similarly to Sang, his son Thanh Chung also displayed a loss of composure. He challenged the online community, posting a status that said: "C'mon It just a few pieces of human meat."

In the end, all the uncontrolled statuses posted by the father and son were deleted about an hour after being posted.

THEREFORE, MR. DOAN VAN SANG IS TEMPORARILY REGARDED AS THE SUSPECTED EXECUTIONER

WHY IS MR. DOAN VAN SANG SUSPECTED OF BEING THANHCHUNG1111?

WHY IS THANHCHUNG1111 BELIEVED TO BE CAM THANH CHUNG?

WHY IS CAM THANH CHUNG BELIEVED TO BE THE EXECUTIONER?

VIII.

SOCIAL MEDIA HISTORY OF THE SUSPECT

To reiterate, Cam Thành Chung was the executioner described by Dat to the anonymous whistleblower, and was introduced to this person. Cam Thành Chung also messaged the anonymous whistleblower to come to the address 81 Chi Lăng.

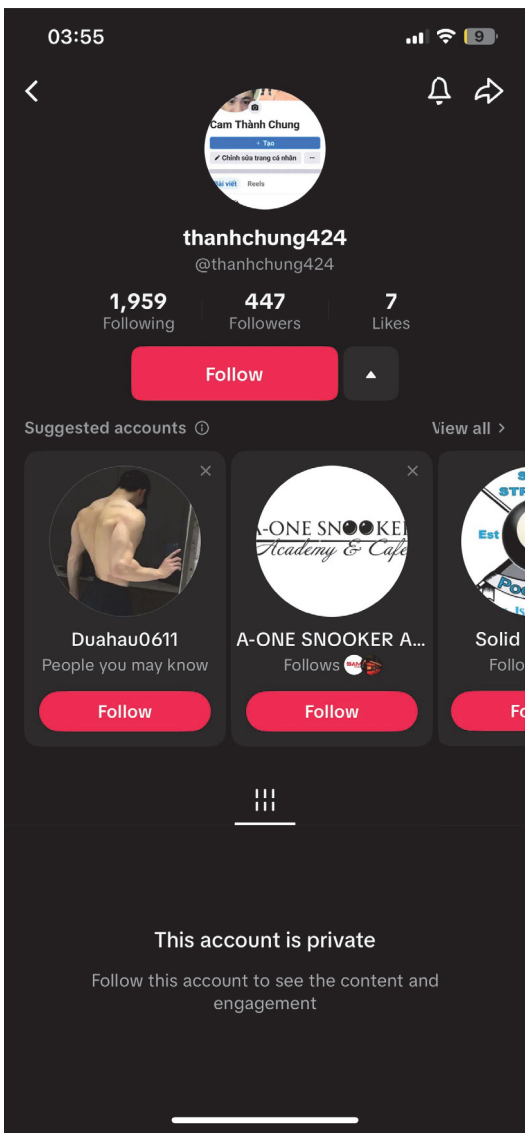
As previously recounted, the online community uncovered the connection between **thanhchung11111** and **doansangls** (Đoàn Văn Sáng) through their accounts on Instagram, Facebook, and X.

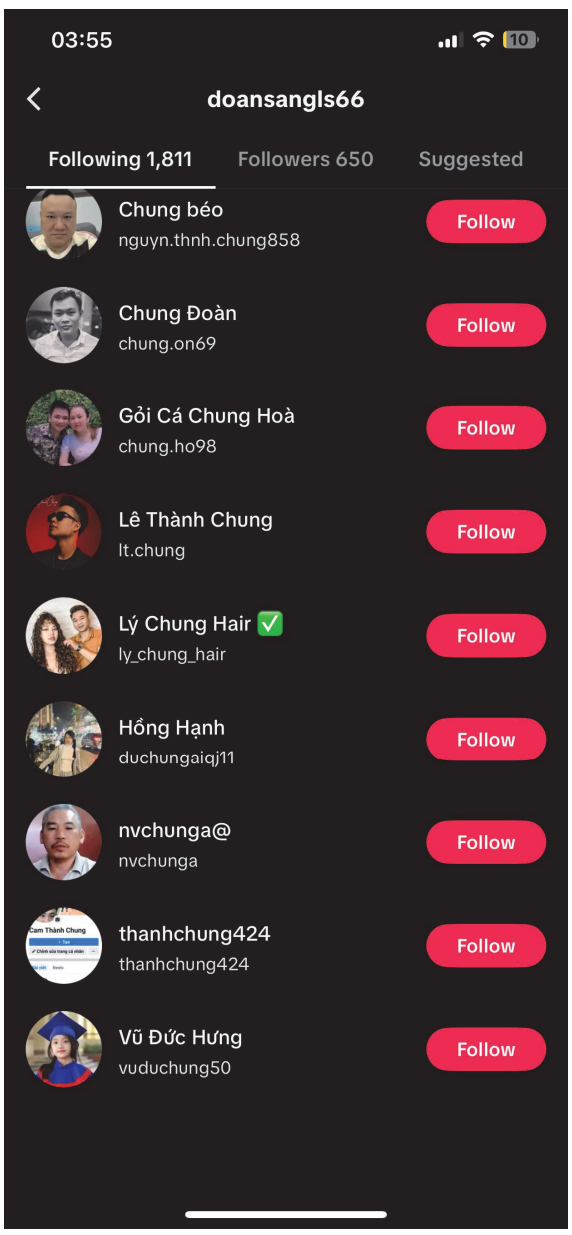
The community discovered Mr. Đoàn Văn Sáng's habit of using his verified social media accounts to follow his own anonymous accounts, and vice versa. Upon checking the verified TikTok account **doansangls66**, they found it was following an account named **thanhchung424**.

The **thanhchung424** account, in turn, used a profile picture taken from the Facebook account of **Cam Thành Chung**.

Thus, a clear link exists between **doansangls**, **thanhchung1111**, and **Cam Thành Chung**—the individual identified by the anonymous whistleblower as the executioner.

Could this merely be a coincidence?

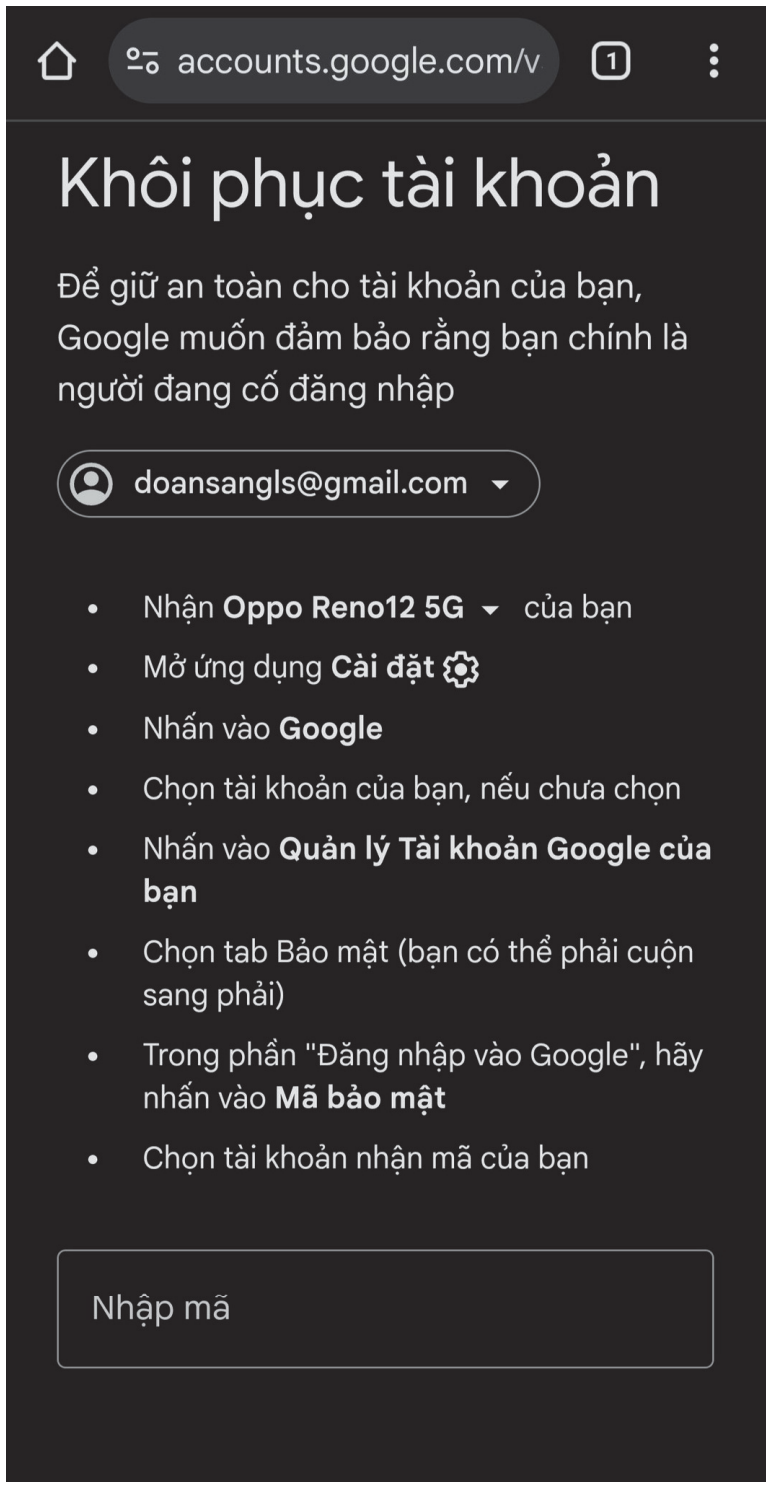




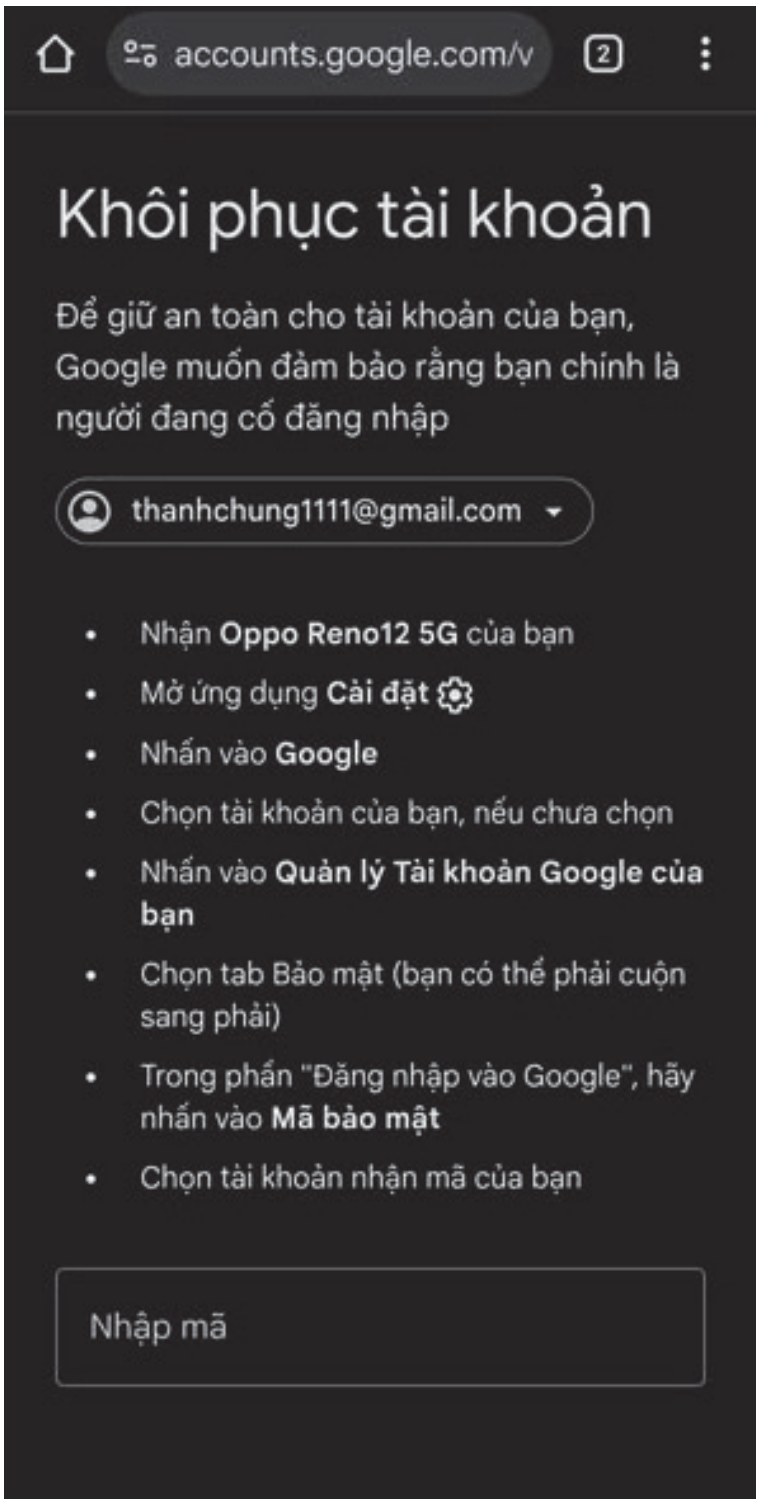
Mr. Sang's TikTok follows Cam Thanh Chung.

Screenshot of Doan Van Sang's verified TikTok account.

The online community guessed and attempted to log into two emails: doansangls@gmail.com and thanhchung1111@gmail.com. Both required verification from the same Oppo Reno12 5G phone. Quite a coincidence.

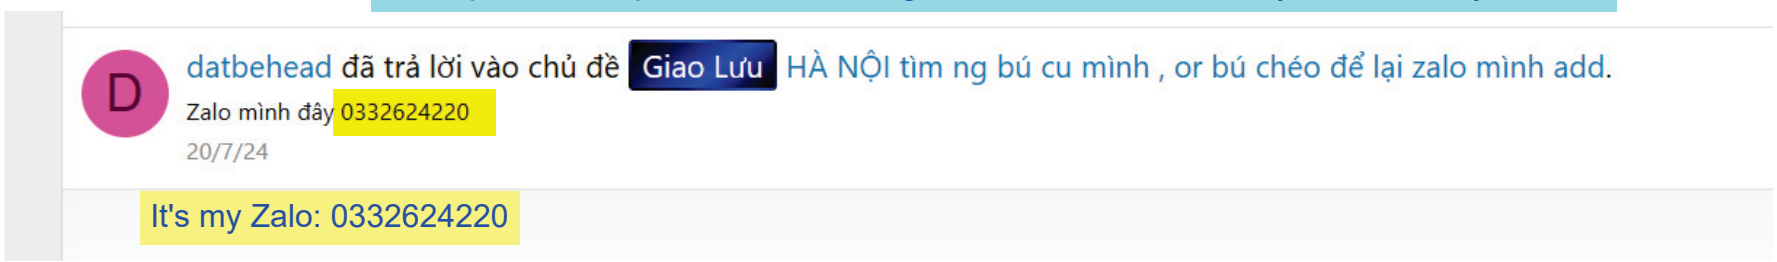


Email: doansangls@gmail.com

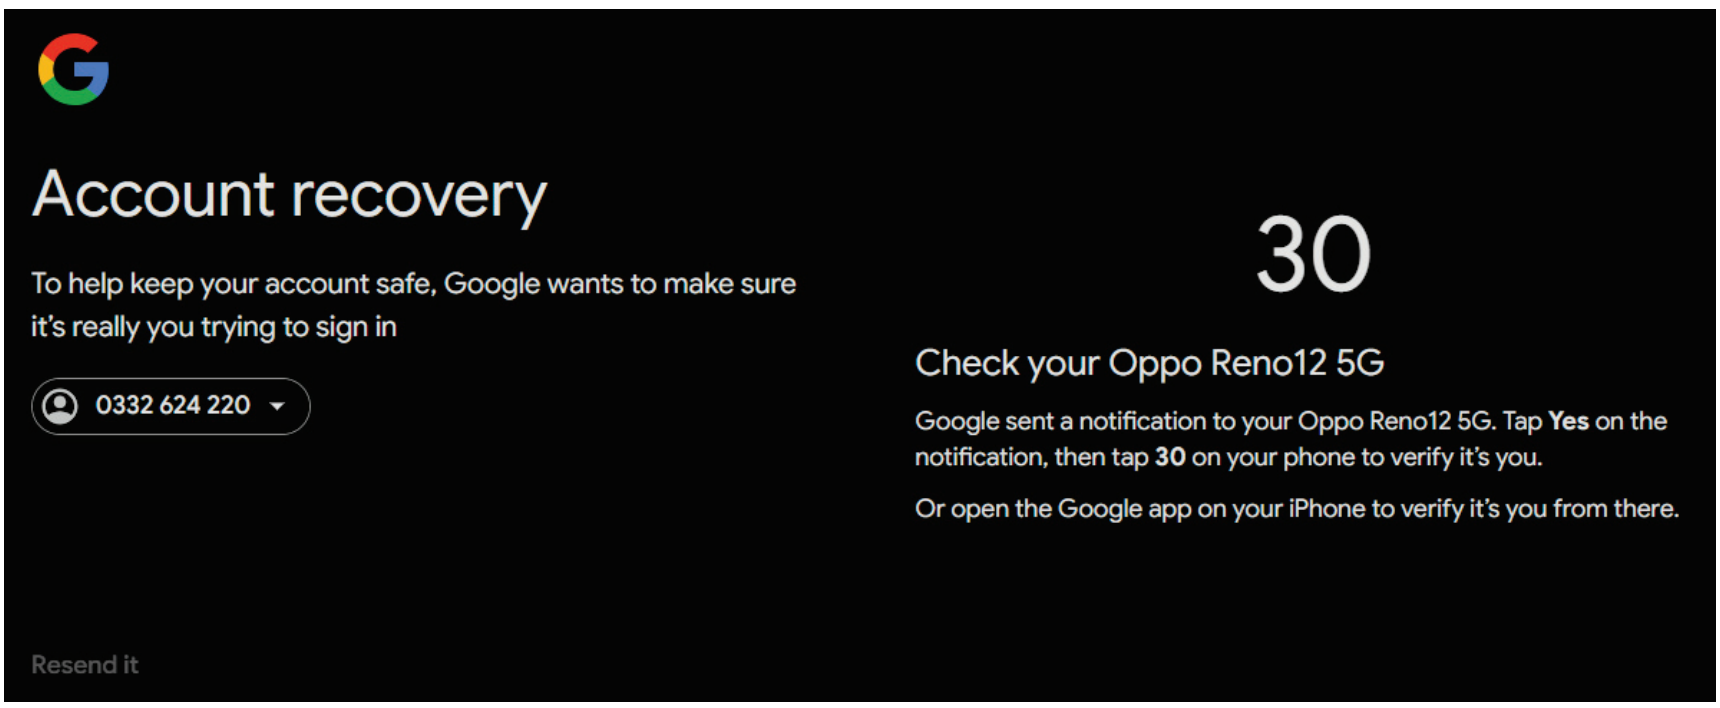


Email: thanhchung1111@gmail.com

Dat replied to a topic: Ha Noi, seeking for someone can suck my dick. Leave your Zalo



The online community then attempted to recover the email associated with Datbehead's phone number. They also received a notification that the email linked to this number required verification from the same Oppo Reno12 5G phone.

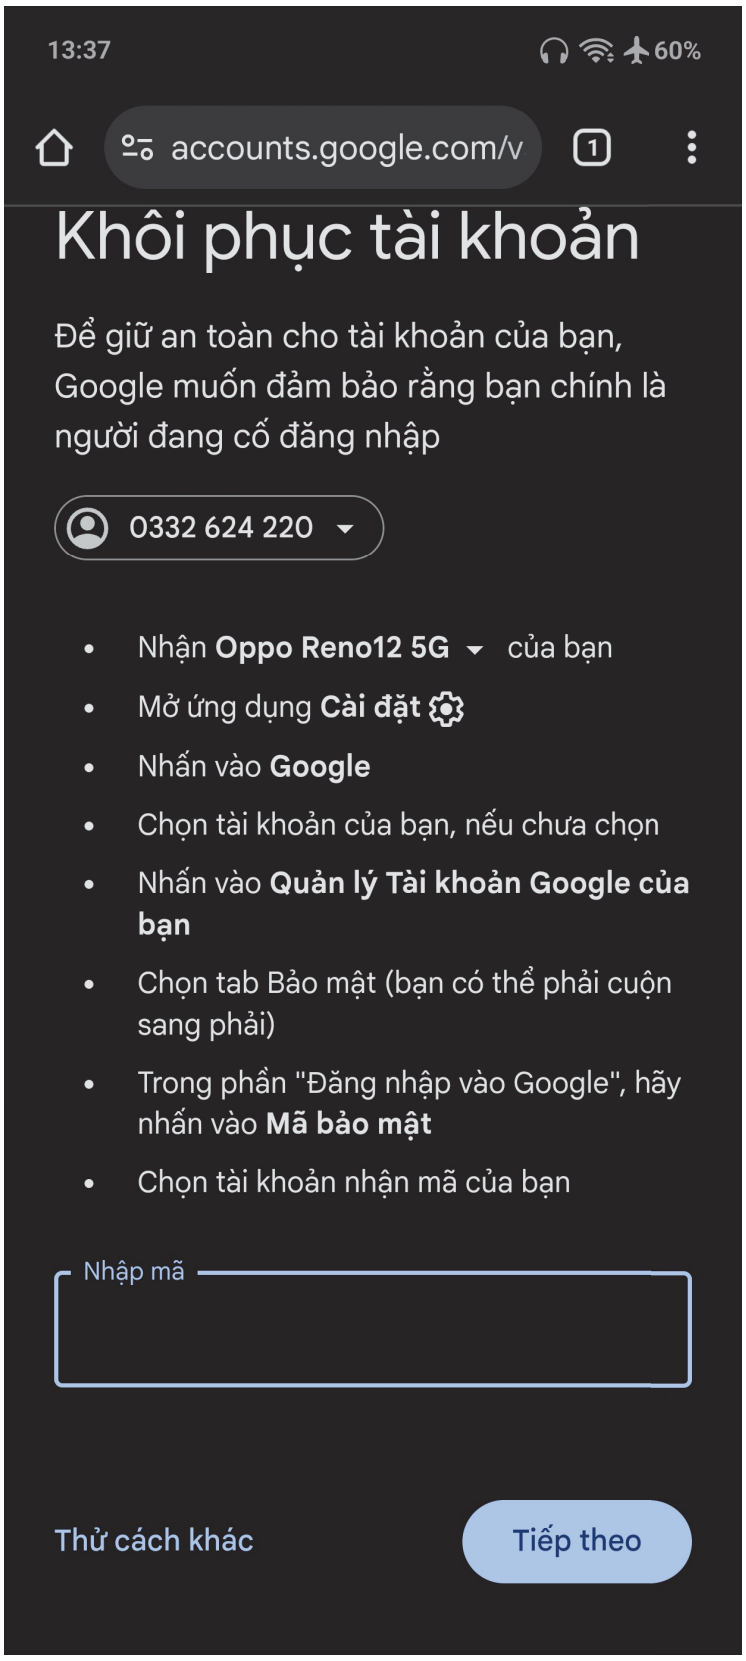


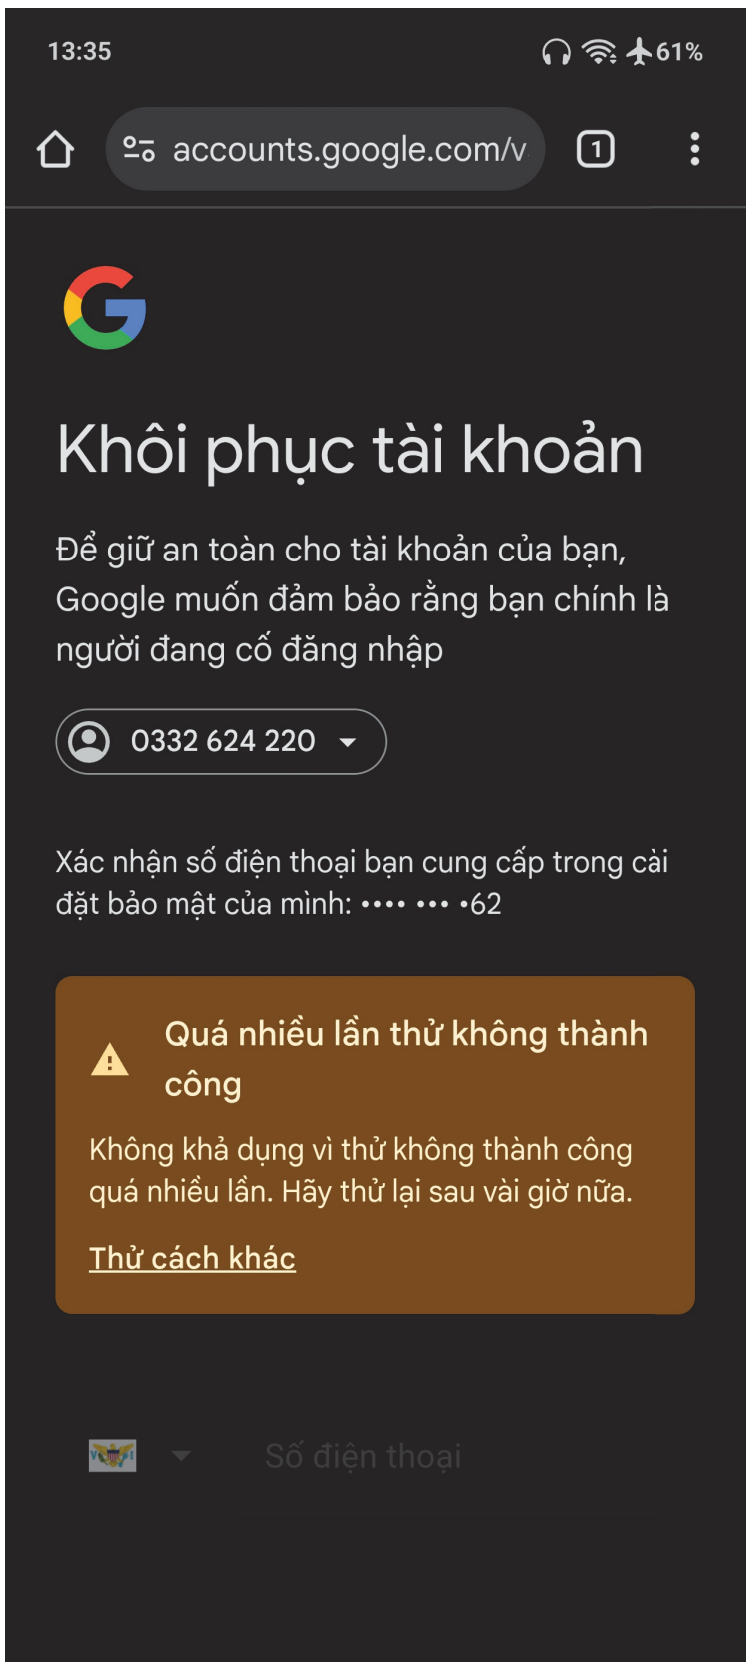
Google notification when recovering the email created with Nguyen Xuan Dat's phone number.

Quite a coincidence: doansangls, thanhchung1111, and the phone number of datbehead all trace back to the same Oppo Reno12 5G device.

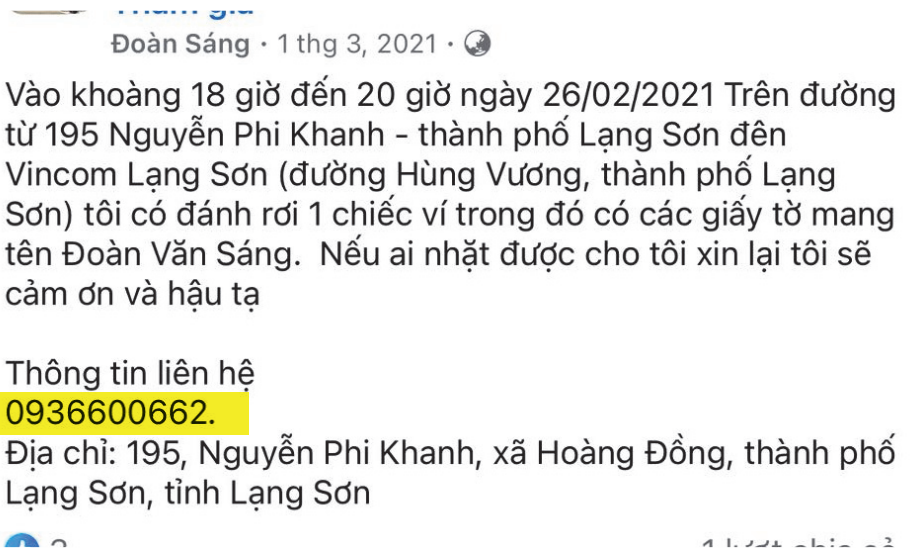
The Oppo Reno12 5G was launched in Vietnam on May 07, 2024.

Continuing to attempt logging into the email associated with Datbehead's phone number 0332 624 220 multiple times, Google notified that verification was required via a two-factor authentication security phone number—a different number ending in 62.





The second phone number used for two-factor authentication ends in 62.



Screenshot of Mr. Doan Van Sang's Facebook post looking for his wallet.

An anonymous account claimed that Cam Thành Chung had sent him photos and messages to initiate contact two years ago. However, since the Facebook account is now locked, it displays as "Facebook User." The person in the photos sent by Cam Thành Chung is Mr. Đoàn Văn Sáng.

Post from the Anonymous account.

A detail straight out of a movie: before the truth was exposed, the executioner was still using the account **thanhchung11111** to comment on posts about the NXD case itself. He was remotely observing what society thought about him.

Screenshot of the suspect's forum activity.

OKAY. LET'S ASSUME DATBEHEAD, CAM THANH CHUNG, THANHCHUNG1111, AND DOANSANGLS ARE ALL INTERCONNECTED.

IS THAT ENOUGH EVIDENCE TO SUSPECT ĐOÀN VĂN SANG IS THE EXECUTIONER?

IX.

IDENTIFYING THE SUSPECT

First, let's try covering Mr. Sang's face with a military-issue mask—given his role, it wouldn't be difficult for him to obtain one. The hairline and eyes bear a strong resemblance.

Image uploaded to the internet by the executioner himself.

Mr. Sang has a second Facebook account named "Văn Sáng Đoàn," which had been inactive for years and had its profile locked just one day ago.

However, the online community managed to archive the images in time. This photo shows Mr. Sang wearing a mask, sitting at his workplace.

The hairline shows a significant resemblance.

https://www.facebook.com/profile.php?id=100044776172988

An individual from the online community composited an image from the Doan Sang page (before Mr. Sang locked his profile) with a picture of the executioner.

The scar above the left eyebrow bears a notable resemblance to the executioner's distinguishing feature.

Another angle shot.

A RESEMBLING FACE IS STILL NOT SUFFICIENT EVIDENCE.

WHAT IF IT'S JUST A CASE OF TWO PEOPLE LOOKING ALIKE?

A composite of four images, arranged left to right. The first three are daily life photos Mr. Sang posted on his "Doan Sang" Facebook. The fourth image is a photo the executioner posted online during the dismemberment of Nguyen Xuan Dat.

All four images show a circular birthmark on the outer shin of the left leg.

A side-by-side composite of two images. On the left is a photo of the executioner during the butchering of Nguyen Xuan Dat. On the right is a casual photo posted by Mr. Sang on his Doan Sang Facebook. Both show a birthmark on the front shin of the right leg.

Regarding the birthmark on the right bicep, extending up towards the armpit. Two images of Mr. Sang have been found where part of his bicep is exposed from his sleeve. Both images appear to show a large birthmark on the right bicep.

Image self-posted by the executioner.

Image from the Doan Sang Facebook page.

Image from the Doan Sang Facebook page.

In the image on the left, it is clearly visible that the suspect, Sang, has a large birthmark on his right armpit and bicep.

The image shows the birthmark.

The image shows the tattoo.

Finally, the evidence with the highest reliability is the tattoo "That Day 13-9" on the bicep. The image on the right shows a tattoo on the shoulder. Based on this image, it appears to be on the left shoulder, but it's unclear if the image has been flipped (mirrored) due to the phone's camera. If it has been flipped, then it would be the right shoulder. The content of the tattoo is not clearly visible.

A netizen provided an image of the house at 195 Nguyen Phi Khanh, the address the suspect listed when searching for lost items. It's unclear when the photo was taken, but it was likely shot recently when the incident broke out, as this person passed by the suspect's house to take the picture.

When zooming in on the edge, a detail emerges: the sandals left outside this house strongly resemble the sandals worn by the executioner in the execution video.

However, this detail does not carry the same high reliability as the birthmark or tattoo.

It could simply be a popular sandal trend in Lang Son. And everybody wears them.

But we still note this coincidence.

IDENTIFYING THE CRIME SCENE

The online community scoured the suspect's old, no-longer-used Facebook account. They discovered a location with features very similar to the crime scene in the "Butchering" video. It is tentatively suspected to be his workplace. This will be clarified in a later section.

From the image in the article, the suspect is standing performing his duties. Zooming into the background, you can see red patterned kitchen wall tiles and white kitchen counter tiles that match the kitchen in the "Butchering" video.

It is suspected that this might be the kitchen and canteen of a Market Management Department office. This will be clarified in a later section.

Next, the online community cross-referenced the "Rehearsal" video with videos the suspect personally posted on his verified TikTok account. They discovered numerous points of overlap. It is tentatively suspected that this is the suspect's workplace. Further clarification will be provided below.

The crime scene in the "Butchering" video.

It is suspected that the crime scene in the "Butchering" video took place at a Market Management Department office in Lang Son province, characterized by a green door, red baseboards, blue floor tiles, red kitchen wall tiles, and white kitchen counter tiles. The online community collaborated to scour all available internet information and uncovered several crucial leads.

The Market Management Department (MMD Teams) mentioned in news articles with images featuring green doors or directly showing the suspect in the frame are typically Teams No. 1, 2, 3, 4, and 5.

Furthermore, the suspect previously worked at MMD Team No. 5. Before taking early retirement in 2025, he served as the Deputy Head of MMD Team No. 4.

The estimated time of Nguyen Xuan Dat's execution was January 25th. It is likely the suspect was working at MMD Team No. 4 during this period.

However, considering the rotational duty nature of MMD teams in Lang Son City, the possibility cannot be ruled out that the suspect, although assigned to one team, could easily access offices of other teams, including his former team.

This requires further clarification.

Verifying this would be straightforward if someone could physically inspect these offices. However, due to the gruesome nature of the case, no one in the online community dares to approach locations where they might encounter the suspect. They are left relying on Google Street View to examine images.

Unfortunately, Google Street View does not capture any images of green doors, as Google's mobile vehicles only travel main roads and omit the smaller alleys surrounding these offices.

Subsequently, a local resident came forward with a crucial detail: the location where Cam Thành Chung arranged to meet the anonymous individual to discuss the beheading is very close to a Market Management Department (MMD) office. Specifically, it is near the old MMD Team No. 5 office—the suspect's former workplace.

Reviewing the photo of the suspect working in front of the kitchen with the green door, there is a corrugated metal awning above it. It is suspected that this is precisely the location circled in the image below.

To reiterate, verifying this is straightforward. Wherever there is a green door, that is where the "Butchering" video took place.

Local resident provides information.

After reading this part, I suddenly realized a rather coincidental detail: the meeting address at 81 Chi Lang, Huu Lung, Lang Son with the anonymous person is only a few dozen meters away from the MMD office. I am a local resident here. Previously, 81 Chi Lang was the old bus station; its current status is unclear. This area is near the market and very noisy. Notably, the MMD office keeps very fierce dogs. Every time I pass by, I'm afraid of the dogs. This could coincide with the frequent sound of dogs barking in the video.

Đội QLTT số 5 cũ, gần với 81 Chi Lăng

In summary, the crime scene in the "Butchering" video is suspected to be the old MMD Team No. 5 office, located near 81 Chi Lang, Huu Lung, Lang Son.

WHY COMMIT CANNIBALISM AT THE OFFICE?

The suspect held a high-ranking position within the MMD. Furthermore, let's recall that the alleged date of Nguyen Xuan Dat's execution was January 25, 2025, which was the 26th of the last lunar month—the first day of the Lunar New Year holiday. Vietnamese people typically have a 7-10 day Tet holiday, and everyone usually returns to their hometowns. No one remains at the office during this period.

The unit would have been completely deserted during the Tet holiday, especially right before Tet. It's also possible the suspect volunteered for duty at the unit during those days.

The unit was equipped with a kitchen, pots, pans, and cooking utensils.

The unit also had an incinerator for destroying confiscated goods. Should the suspect have needed to dispose of something.

The suspect, being deeply familiar with every corner and the surrounding area of the office, choosing a location he knew best is not difficult to understand.

HIỆN TRƯỜNG TRONG VIDEO TẬP DỢT

The location where the "Rehearsal" video was filmed is suspected to be the same place that Mr. Sang himself recorded a video and uploaded to TikTok, characterized by a white door.

At this point, the YouTuber "Kẻ Tò Mò" released a video analysis stating that this location is also connected to the address Cam Thành Chung sent to Dat's anonymous friend: 81 Chi Lăng, Hữu Lũng Town, Lạng Sơn Province. He visited the site to investigate and concluded that the scene was an old fertilizer warehouse. It is believed the executioner rented this place to carry out the incident. Because it is located near a main road and a large market, sounds of traffic and dogs barking can be heard. The reason for his conclusion stems from a message Cam Thành Chung sent to the anonymous whistleblower: "Dat's bones have already become fertilizer."

Google street view

However, some people argue that this is incorrect, basing their view on specific features visible in the video: red brick-clad pillars, a white door, decorative fretwork under the beams, horizontal louvers for sun shading, red roof tiles in the distance, climbing plants, and a betel nut palm tree.

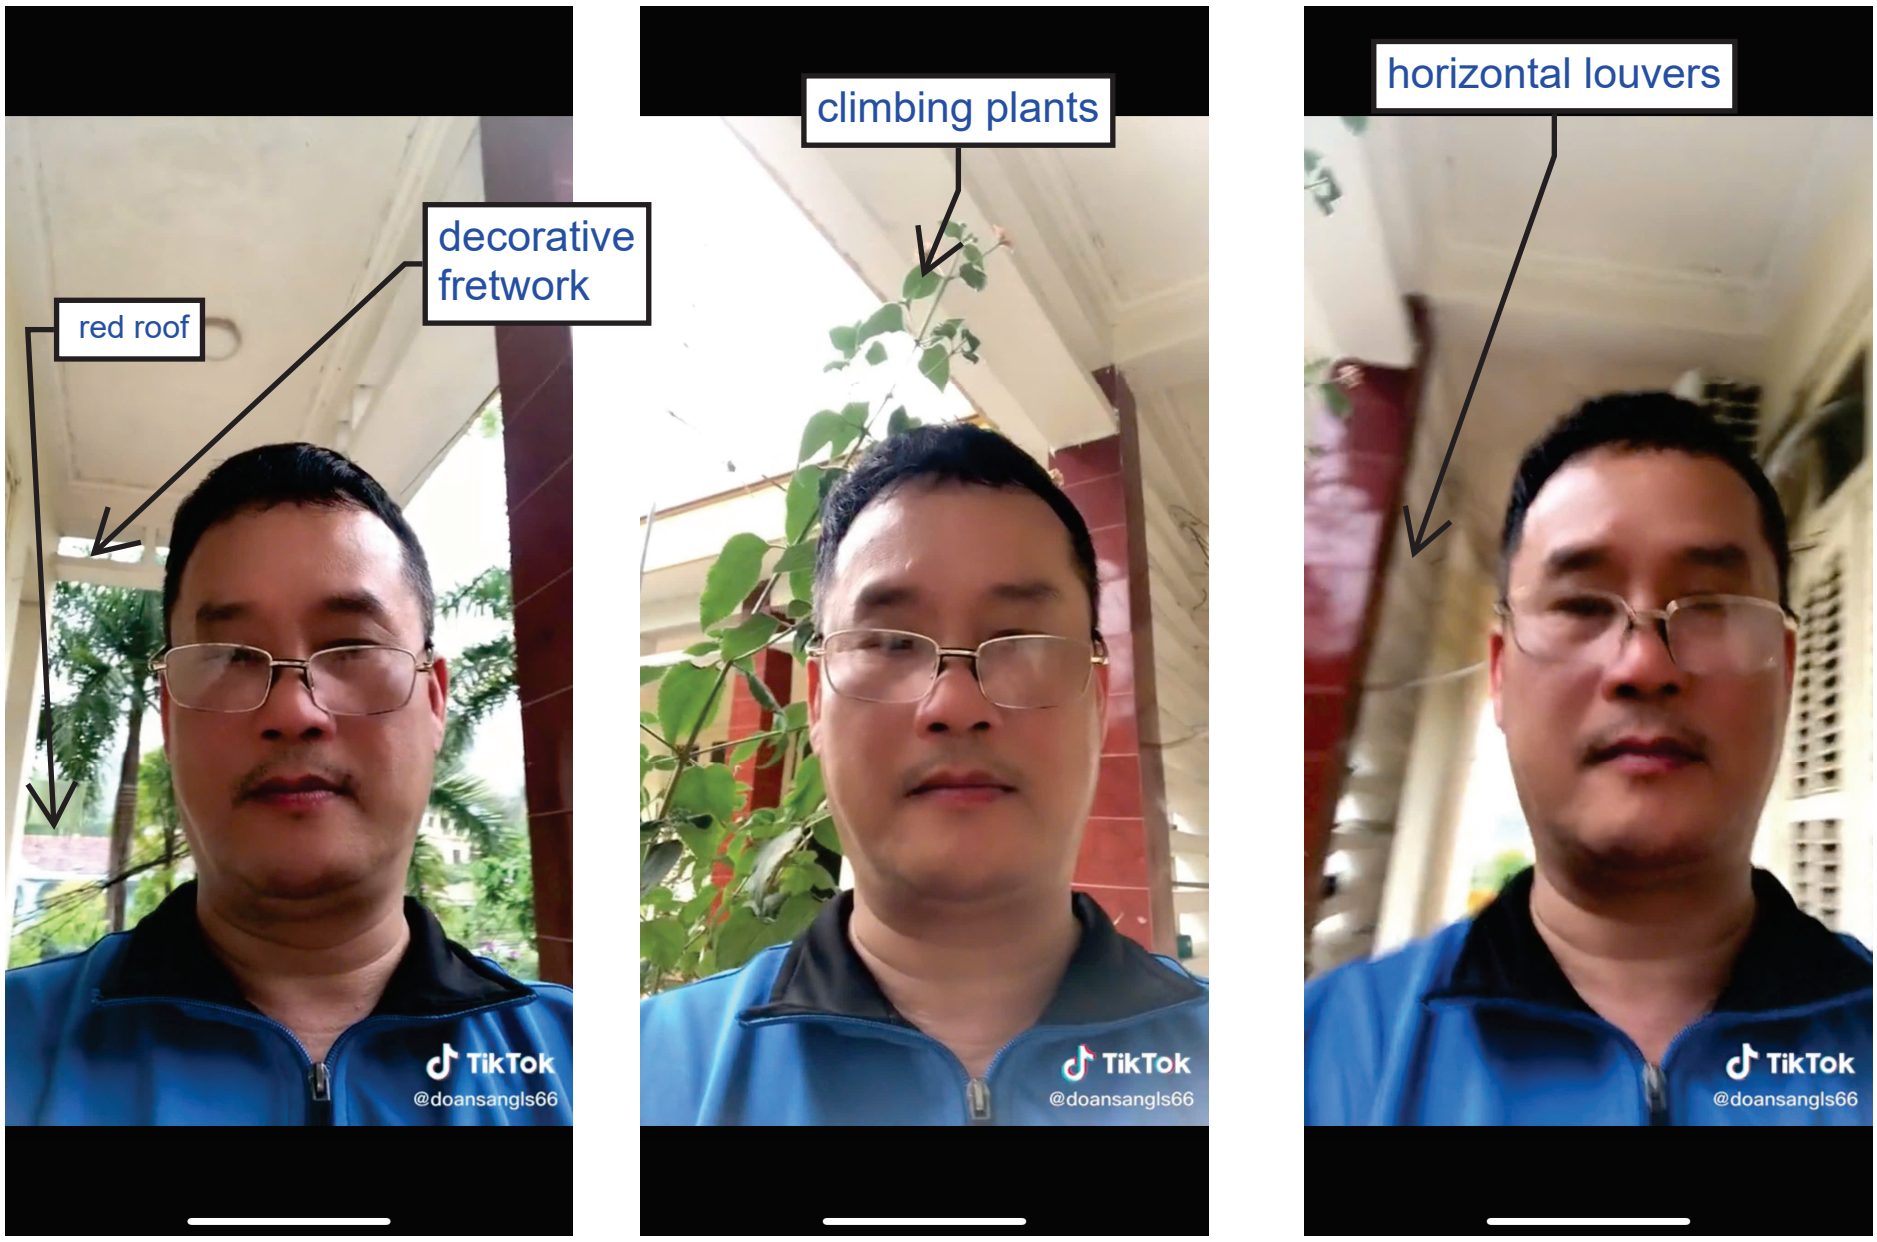

Image excerpted from the TikTok video showing details that match the "Rehearsal" video.

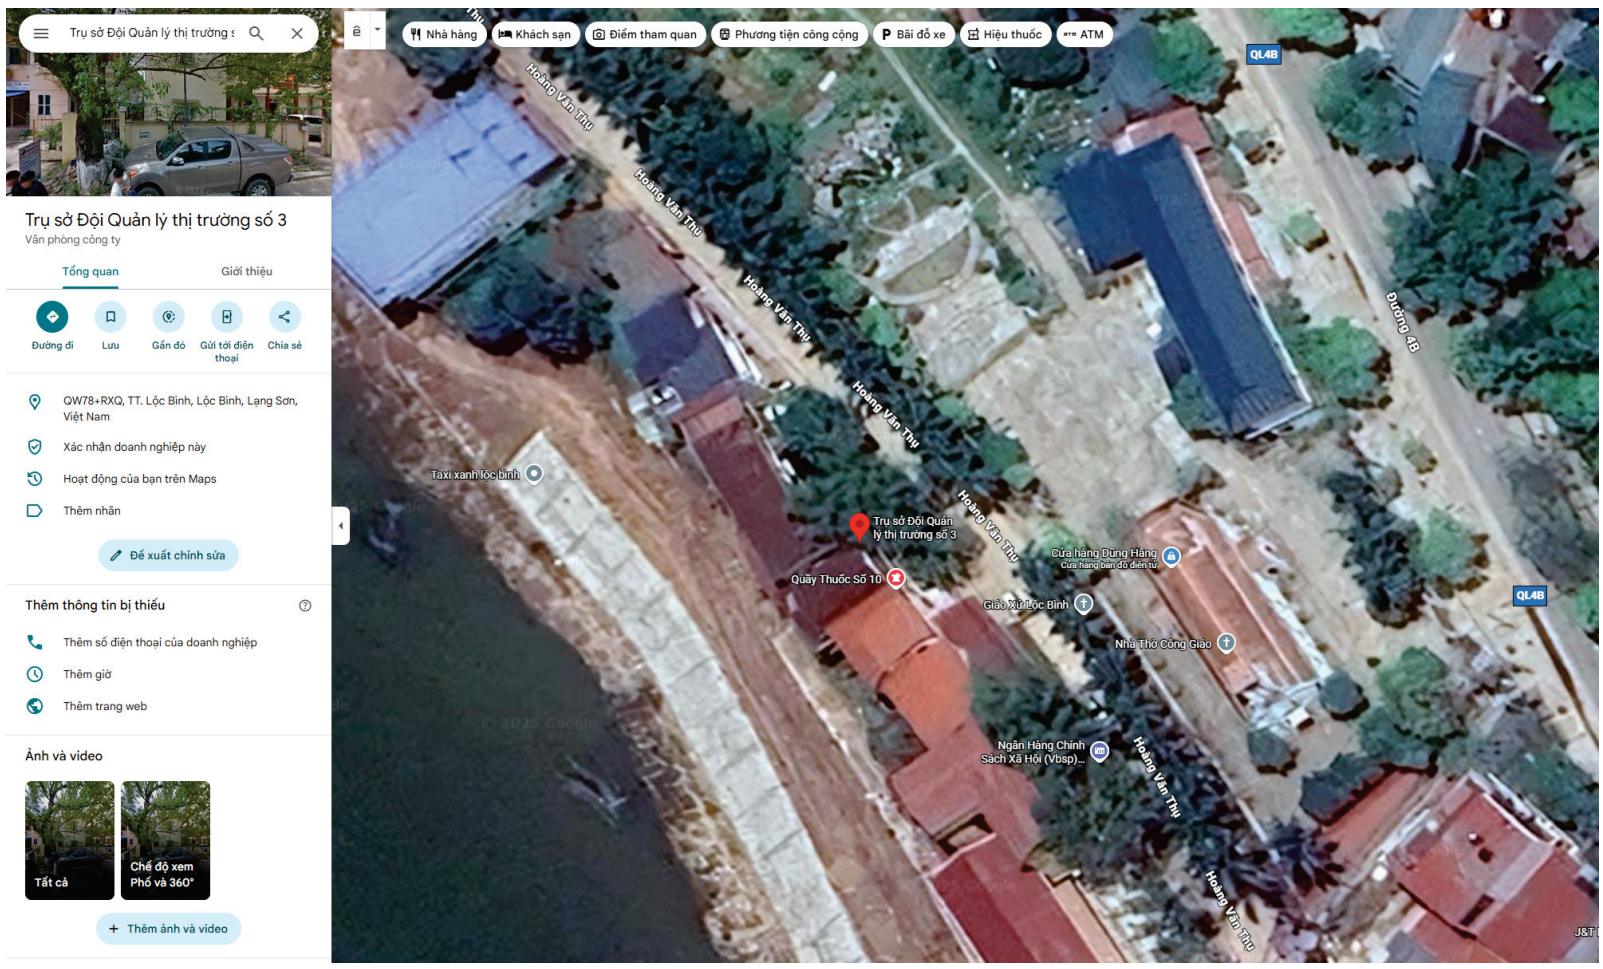
These details match another MMD office: MMD Team No. 3.



Office of MMD team No.3

MMD Team No. 3 is located far from Huu Lung Town. It is speculated that the "Rehearsal" video took place on a different day, with the suspect meeting Nguyen Xuan Dat at a completely different location. This aligns with his schedule for such encounters. In this video, Nguyen Xuan Dat is wearing a formal shirt, looking very much like a guest who could be escorted into the office premises.

Google Street View

Let's start examining the details closely.
First, in the image above, we can easily see the red brick-clad pillars, the decorative fretwork under the beams, and the climbing plant.

Next is the detail of the sun-shading louver and the white door.

Google Street View

Google Street View

The red roof and areca palm tree

Based on the details above, there is sufficient basis to suspect that the meeting and the filming location of the "Rehearsal" video was the MMD Team No. 3 office, located far from Huu Lung town.

In summary,

The location where the "Butchering" video took place is suspected to be the old MMD Team No. 5 office, near 81 Chi Lang, Huu Lung, Lang Son.

The location where the "Rehearsal" video took place is suspected to be the MMD Team No. 3 office.

THE CRIME SCENE IN THE EXECUTION VIDEO

The execution video was filmed in a bathroom, offering few details for the online community to analyze. Pinpointing the exact location is very difficult.

However, let's consider: would someone behead and dismember a body, then transport it elsewhere to process the remains? It is highly likely, therefore, that the execution video occurred in the bathroom of the MMD Team No. 5 office—the same location as the "Butchering" video.

An individual acquainted with MMD staff in Lang Son shared in online forums that, as of the time of this writing, MMD teams in Lang Son were already largely aware of the incident involving the suspect. They viewed the video and confirmed that the bathroom is indeed the one inside the MMD Team No. 5 office, right down to a distinctively recognizable stone still sitting in its place. To avoid potential repercussions, the specific chat logs containing this confirmation will not be included here.

Summary of Crime Scene Information:

* **Rehearsal:** Took place at the MMD Team No. 3 office.
* **Execution and Butchering:** Took place at the old MMD Team No. 5 office.

XI.

THE SUSPECT'S OTHER DIGITAL FOOTPRINTS AND PATHOLOGY

This final section consolidates all information traced by the online community regarding the suspect, based on the digital footprints outlined in previous parts.

The suspect is an educated individual with a university degree, who has been using social media for over 20 years. His digital footprint is extensive.

Over the years, his online traces show a clear progression: from seeking sexual encounters, to developing a desire to be a "boss," a master, to torturing his sexual slaves.

Finally, he evolved to the most savage level: wanting to kill and cannibalize his partners.

All these images are linked to the familiar username: thanhchung1111.

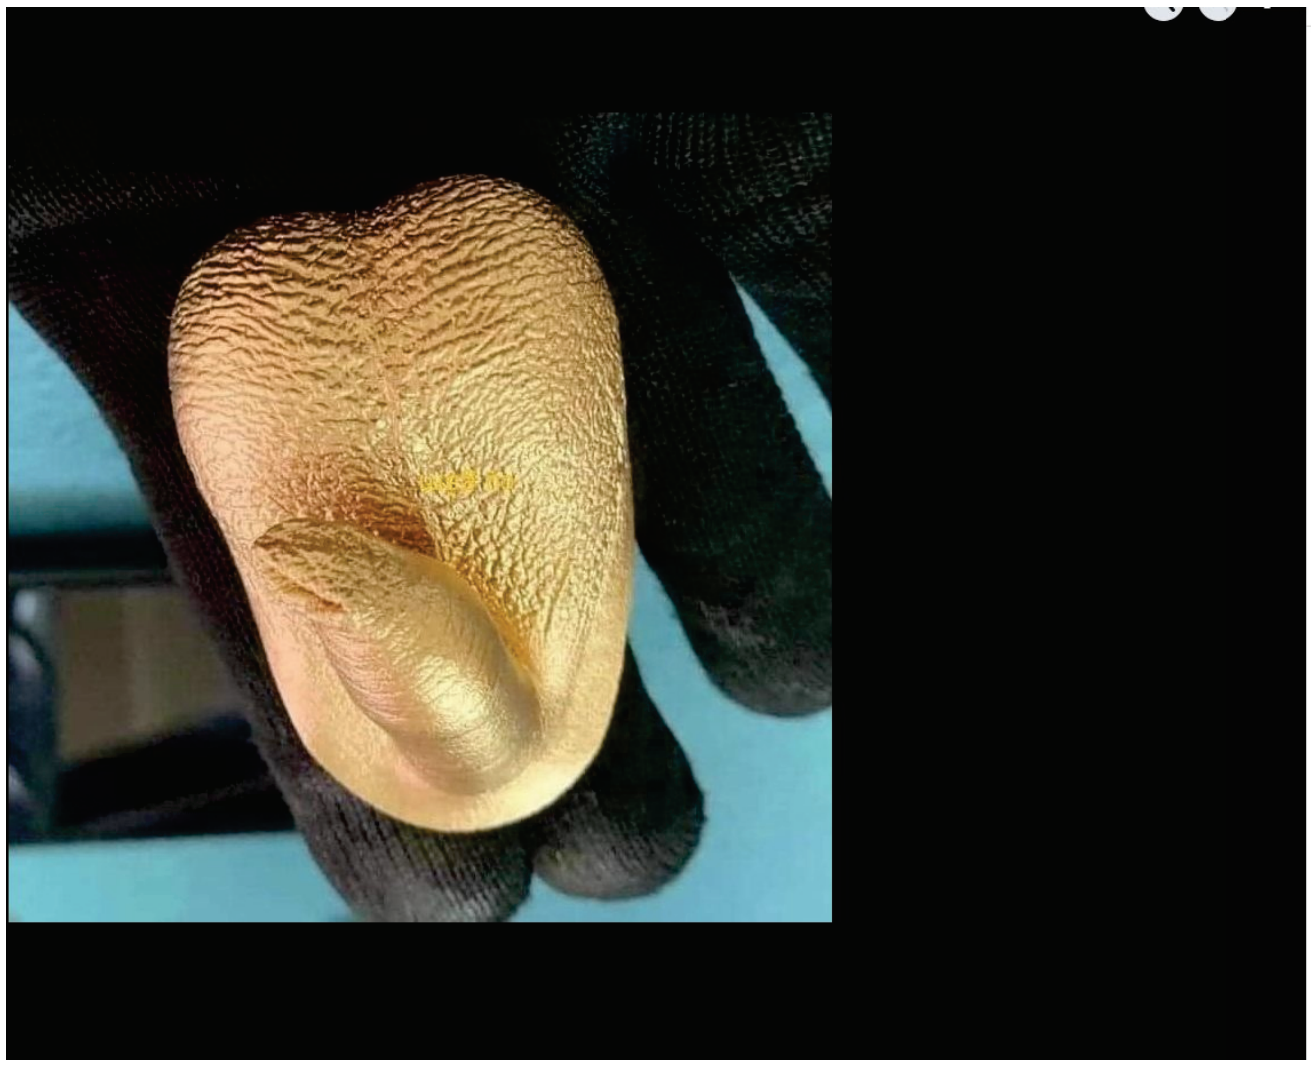
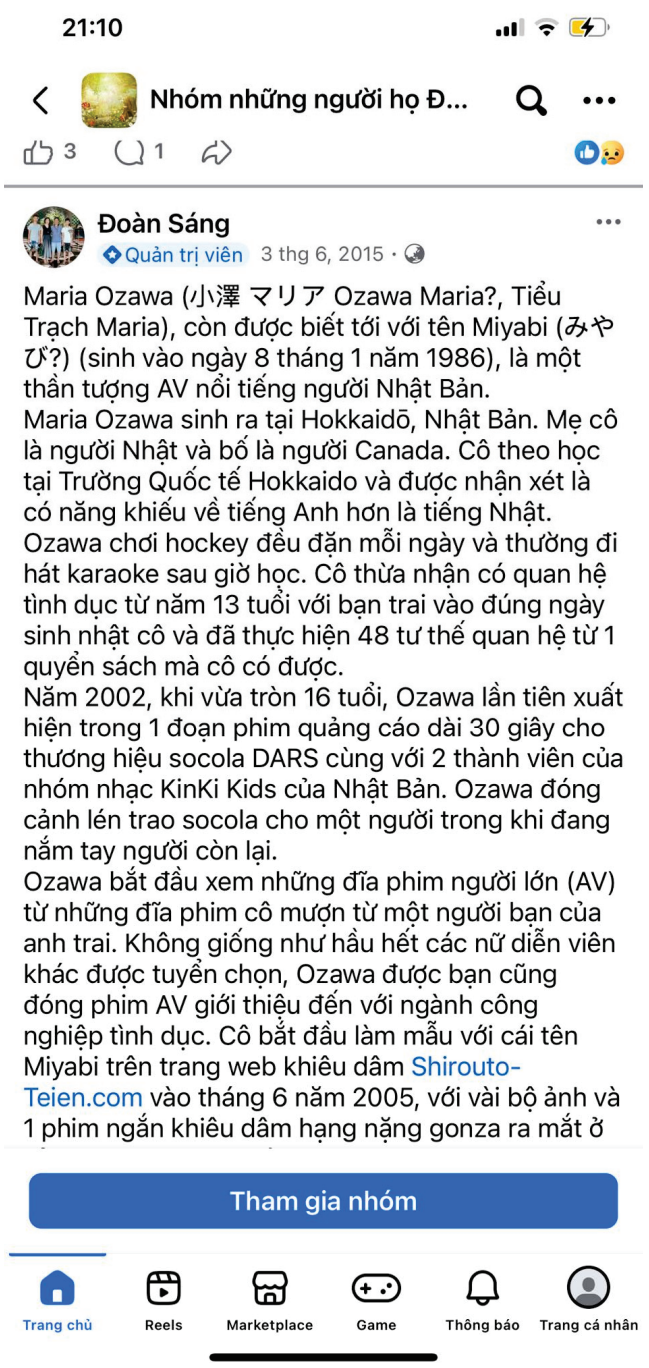
The suspect once posted a topic containing images of a dismembered body on a forum in 2022, claiming it was a horror-themed post. The images have since been deleted. It remains unclear whether those images depicted a victim of his prior to Dat, or if they were merely part of a gore collection hobby.

The suspect posted an abstract image on his verified Facebook account. It is unknown whether it is a real item or a model.





The suspect has conducted in-depth research on female JAV actresses. He might be bisexual rather than exclusively gay. He has a wife and two children.

Nhờ anh sơn vũ xem giúp hiện nay tôi đang giúp một công ty sửa sai phạm có thể dẫn tới việc có người phải đi tù nhưng do trình độ và suy nghĩ nông cạn nên tôi muốn giúp họ chỉ bị xử phạt tức là chỉ bị mất tiền mà không phải dính vào vòng lao lý có được không . giờ hỏi 10 giờ 48 ngày 22/9

The suspect sought to "intervene in a legal case" for someone else. He joined a fortune-telling group, asking for a divination to see if everything would go smoothly.

Someone insulted the MMD team, calling them bribetakers. The suspect felt his profession was insulted and entered the argument to retaliate.

The suspect frequently orders penises and testicles online from suppliers in Southern Vietnam. These are suspected to be from transgender individuals post-sex-reassignment-surgery removal.

Additionally, some are also from individuals who self-castrate for monetary rewards.

The purpose of these purchases remains unknown.

My horny beast is in heat every day, his cock is rock hard and dripping with horny juices. He longs to be slaughtered, bled, gutted, and eaten, so that his horny cock won't be so painfully swollen. My horny beast thinks every day about being forced to ejaculate by the butcher, being tortured, castrated, and even more so about being slaughtered, bled, gutted, and eaten by the butcher.

XII.

CONCLUSION

🗓️ **INCIDENT EXPOSURE & COMMUNITY INVESTIGATION**

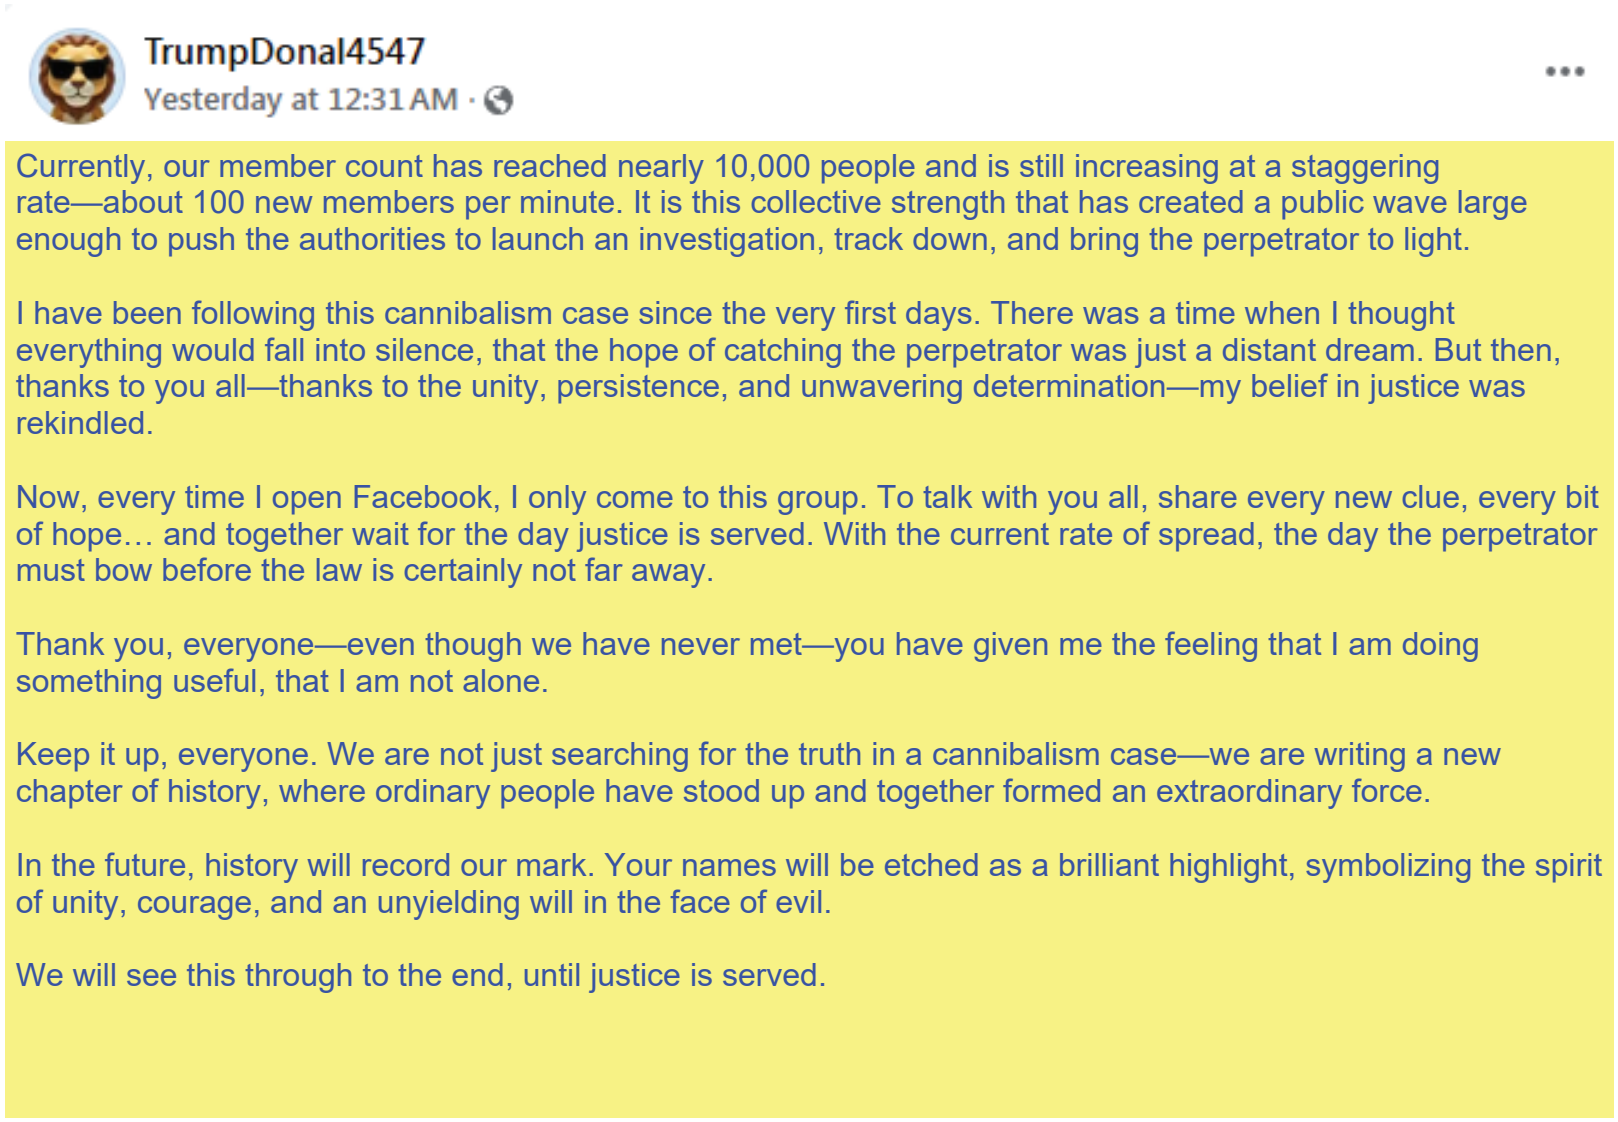
- **10 Jun 2025:**
    - **Final Facebook Status:** Dat's Facebook posts its final status: *"Logging off this account for good!"* (Believed to be posted by the suspect).
- **26 Jul 2025:**
    - **Videos Go Viral:** The **"Rehearsal," "Execution,"** and **"Butchering"** videos and photos spread rapidly on international sites (wa*********die.tv), Telegram, and then Vietnamese social media.
- **Late Jul - Early Aug 2025:**
    - **Initial Online Investigation:** Netizens begin tracing data: finding Dat's Facebook history, his phone numbers, Zalo account (Datbehead), and contacting his friends, including an anonymous account Phi Le.
- **Early August 2025:**
    - **Victim's Facebook Locked:** Nguyen Xuan Dat's Facebook account is permanently locked.
- **Mid-Aug - Early Nov 2025:**
    - **Case Goes Quiet:** Public interest wanes. Some individuals, notably YouTuber **"Ke To Mo" (The Curious One)**, continue investigating quietly.

🗓️ **SUSPECT UNMASKED (NOVEMBER 2025)**

- **3rd Week of Nov 2025:**
    - **New Chat Logs Leaked:** An anonymous account releases previously unseen chats with Nguyen Xuan Dat and with the suspect **Cam Thanh Chung**. The address **81 Chi Lang, Huu Lung, Lang Son** is revealed as a meeting point.
- **20 Nov 2025:**
    - **Breakthrough: Digital Footprint Connected:**
        - Netizens find accounts thanhchung1111, thanhchung111, etc., linked to the main account doansangls of **Doan Van Sang**.
        - Doan Van Sang is identified as former Deputy Head of MMD Team No. 4, Lang Son.
        - His son is identified as **D.N.Thanh Chung** (Birthday: Sep 13), matching the executioner's *"That Day 13-9"* tattoo.
        - **Evening:** Doan Van Sang and his son lose composure, enter discussion groups to post defiant statuses claiming to be the "executioner," then delete them.
        - Emails doansangls@gmail.com, thanhchung1111@gmail.com, and Datbehead's phone number are all linked to the **same Oppo Reno12 5G phone**.
- **21-26 Nov 2025:**
    - **Suspect & Scene Identification:**
        - Biometric comparisons match: scar above eyebrow, large birthmark on arm/armpit, tattoo.
        - Two primary crime scenes identified:
            1. **MMD Team No. 3:** Location of the **"Rehearsal"** video.
            2. **Old MMD Team No. 5:** Location of the **"Execution"** and **"Butchering"** videos.
- **27 Nov 2025:**
    - **Information Compiled:** As of this date, suspect **Doan Van Sang** remains at large; no official arrest has been made.

Public group · 19.1K members

As of now, at least 20,000 people from various online communities across Vietnam have participated in commenting, discussing, and tracing the suspect. This demonstrates the exceptional level of public attention and concern regarding this case.



A Netizen's Heartfelt Words, Following the Case Since the Early Days

We kindly ask readers to understand that the information presented in this document is not, and cannot be construed as, conclusive legal evidence such as DNA or CCTV footage. Only official investigative authorities have the power to determine and present such evidence for prosecution.

This document serves as a temporary compilation of the case and reflects the fear and deep concern within the Vietnamese community regarding its severe nature.

The suspect is an exceptionally dangerous individual, possessing a deviant and perverted mindset. It is uncertain whether Nguyen Xuan Dat was his first or his last victim.

As of the writing of this document on November 27, 2025, the suspect remains free, living his life normally, and continues to browse social media and post Facebook stories, as no investigative agency has taken action. The suspect is legally knowledgeable and works in a law-related profession, making him particularly cunning in evading accountability. The physical evidence has been thoroughly disposed of, and these digital footprints alone are unlikely to be sufficient for conviction. However, the Vietnamese community is anxiously awaiting the moment when the police move to arrest and prosecute him.

If he remains at large, he poses an extreme threat to society. Should this case once again fade into obscurity, he would likely feel proud of his ability to dispose of a body and manipulate his digital footprint. The possibility cannot be ruled out that he will continue to seek out other vulnerable individuals with suicidal ideations like Nguyen Xuan Dat, committing even more sophisticated and brutal acts.

It is our fervent hope that this case is soon concluded with a fitting and just sentence for the suspect.
